**Permanent Supportive Housing** National Academies of Sciences, Engineering, and Medicine 2018-07-11 Chronic homelessness is a highly complex social problem of national importance. The problem has elicited a variety of societal and public policy responses over the years, concomitant with fluctuations in the economy and changes in the demographics of and attitudes toward poor and disenfranchised citizens. In recent decades, federal agencies, nonprofit organizations, and the philanthropic community have worked hard to develop and implement programs to solve the challenges of homelessness, and progress has been made. However, much more remains to be done. Importantly, the results of various efforts, and especially the efforts to reduce homelessness among veterans in recent years, have shown that the problem of homelessness can be successfully addressed. Although a number of programs have been developed to meet the needs of persons experiencing homelessness, this report focuses on one particular type of intervention: permanent supportive housing (PSH). Permanent Supportive Housing focuses on the impact of PSH on health care outcomes and its cost-effectiveness. The report also addresses policy and program barriers that affect the ability to bring the PSH and other housing models to scale to address housing and health care needs.

**Global Trends 2040** National Intelligence Council 2021-03 "The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

**The 4-Hour Work Week** Timothy Ferriss 2007 Offers techniques and strategies for increasing income while cutting work time in half, and includes advice for leading a more fulfilling life.

**Ending Discrimination Against People with Mental and Substance Use Disorders** National Academies of Sciences, Engineering, and Medicine 2016-09-03 Estimates indicate that as many as 1 in 4 Americans will experience a mental health problem or will misuse alcohol or drugs in their lifetimes. These disorders are among the most highly stigmatized health conditions in the United States, and they remain barriers to full participation in society in areas as basic as education, housing, and employment. Improving the lives of people with mental health and substance abuse disorders has been a priority in the United States for more than 50 years. The Community Mental Health Act of 1963 is considered a major turning point in America's efforts to improve behavioral healthcare. It ushered in an era of optimism and hope and laid the groundwork for the consumer movement and new models of recovery. The consumer movement gave voice to people with mental and substance use disorders and brought their perspectives and experience into national discussions about mental health. However over

the same 50-year period, positive change in American public attitudes and beliefs about mental and substance use disorders has lagged behind these advances. Stigma is a complex social phenomenon based on a relationship between an attribute and a stereotype that assigns undesirable labels, qualities, and behaviors to a person with that attribute. Labeled individuals are then socially devalued, which leads to inequality and discrimination. This report contributes to national efforts to understand and change attitudes, beliefs and behaviors that can lead to stigma and discrimination. Changing stigma in a lasting way will require coordinated efforts, which are based on the best possible evidence, supported at the national level with multiyear funding, and planned and implemented by an effective coalition of representative stakeholders. Ending Discrimination Against People with Mental and Substance Use Disorders: The Evidence for Stigma Change explores stigma and discrimination faced by individuals with mental or substance use disorders and recommends effective strategies for reducing stigma and encouraging people to seek treatment and other supportive services. It offers a set of conclusions and recommendations about successful stigma change strategies and the research needed to inform and evaluate these efforts in the United States.

**Grandpa Stops a War** Susan Robeson 2019-04-09 "It takes a man of peace to stop a war." The true story of Paul Robeson's visit to the front lines of the Spanish Civil War is a tale of courage and activism told by his granddaughter, Susan Robeson. Grandpa Paul was a world-famous actor and singer with a deep and rumbling voice, a man of peace and principle who worried about the safety of children and families living in countries at war. He wanted to use his voice to promote social justice all over the world. Though people warned Grandpa Paul that it was too dangerous, he traveled with his friend Captain Fernando to the battlefields of the Spanish Civil War to sing to the soldiers. And then something amazing happened... With gorgeous illustrations from fine artist Rod Brown, Grandpa Stops a War celebrates Paul Robeson's global activism and towering achievements, and shows readers the power of music in times of discord and war. An author's note helps readers learn more about the author's personal experience growing up in the Robeson family, and gives parents, teachers, and librarians more in-depth material to expand the reader's understanding of the war and Robeson as a champion of civil rights, global freedom, and world peace.

**Tracing Your Coalmining Ancestors** Brian Elliott 2014-02-11 "A meticulous mixture of social and family history . . . Whether or not you have mining connections, this is an interesting socio-economic read." —Your Family Tree In the 1920s there were over a million coalminers working in over 3000 collieries across Great Britain, and the industry was one of the most important and powerful in British history. It dominated the lives of generations of individuals, their families, and communities, and its legacy is still with us today—many of us have a coalmining ancestor. Yet family historians often have problems in researching their mining forebears. Locating the relevant records, finding the sites of the pits, and understanding the work involved and its historical background can be perplexing. That is why Brian Elliott's concise, authoritative and practical handbook will be so useful, for it guides researchers through these obstacles and opens up the broad range of sources they can go to in order to get a vivid insight into the lives and experiences of coalminers in the past. His overview of the coalmining history—and the case studies and research tips he provides—will make his book rewarding reading for anyone looking for a general introduction to this major aspect of Britain's industrial heritage. His directory of regional and national sources and his commentary on them will make this guide an essential tool for family historians searching for an ancestor who worked in coalmining underground, on the pit top or just lived in a mining community. As featured in *Who Do You Think You Are?* Magazine and the *Barnsley Chronicle*.
