Glamping with MaryJane MaryJane Butters 2012-09-01 "Glamour camping . . . is about the juxtaposition of rugged and really pretty, grit and glam, diesel and absolutely darling."—The New York Times
Glamping—unleashing your inner wild while wearing a pair of fishing-lure earrings—is for every woman (or man!) who ever had a get-away-from-it-all fantasy (with a few frilly embellishments thrown in). Learn about the never-fail campfire, cooking with cast iron, how to change a flat, and much, much more. Like the infamous Calamity Jane, who said, "I figure if a girl wants to be a legend, she should go ahead and be one," MaryJane Butters coined the term glamping years ago when she founded her unusual Idaho canvas wall-tent bed & breakfast, which was featured in The New York Times Magazine and Travel & Leisure as "the place to be." Legend status achieved, MaryJane lives in Moscow, Idaho, where she runs her many businesses, which include a successful organic farm,

product lines, a bed & breakfast, and MaryJanesFarm magazine. This is her fourth book. "One busy, hectic afternoon in my house, I sat down to take a quick peek at Glamping. Over two hours later, I was still reading, blissfully lost in MaryJane's beautiful world. I'm dying over this book. I absolutely, positively LOVE IT!"—Ree Drummond, New York Times bestselling author of *The Pioneer Woman Cooks*

RV Capital of the World Al Hesselbart 2017-06-12 Time spent with the family in a Coachmen Leprechaun or a Holiday Rambler is unforgettable. Indiana retains a unique place in the RV industry going back to the 1930s, when pioneering individuals like Milo Miller, Harold Platt and Wilbur Schult created the original RV businesses in the Elkhart-South Bend area, making campers for sale. By the end of World War II, the national media was identifying Elkhart as the "Trailer Capital of the World." That status has been reinforced ever since, and the industry is still thriving in Indiana with the successes of Thor Industries and Forest River. The Camper Book Dave Hoekstra 2018-06-01 The Camper Book will captivate all those who dream of waving good-bye to the rat race from

the window of their own moveable home, be it a camper, RV, travel trailer, camper van, or tiny camper. Not just for placid retirees anymore, camper culture has sprung up among simplicity-seeking millennials, retro-loving "glampers," sports and movie stars, aging hippies, contract workers, "road-schoolers," and others. Award-winning journalist Dave Hoekstra hit the road in his own custom camper van, named Bluebird, to explore the history, culture, subcultures, and future of camper life. Traveling and talking his way through US campsites, RV parks, landmarks, and communities, Hoekstra draws out revealing stories from all walks of life—from Americans who are downsizing material goods while upsizing spiritual pursuits to RV enthusiasts such as Grammy-winning singer-songwriter John Prine and Chicago Cubs manager Joe Maddon. A modern-day Studs Terkel, Hoekstra provides a delightful mix of oral history, in-depth reporting, and practical information, while photographer Jon Sall's beautiful color photographs illuminate the unique people, places, and rigs that typify camper life.

Laboratory Biorisk Management Reynolds M. Salerno 2015-12-01 Over the past two decades bioscience facilities worldwide have experienced multiple safety and security incidents, including many notable incidents at so-called "sophisticated facilities" in North America and Western Europe. This demonstrates that a system based solely on biosafety levels and security regulations may not be sufficient. Setting the stage for a substantively different approach for managing the risks of working with biological agents in laboratories, *Laboratory Biorisk Management: Biosafety and Biosecurity* introduces the concept of biorisk management—a new paradigm that encompasses both laboratory biosafety and biosecurity. The book also provides laboratory managers and directors with the information and technical tools needed for its implementation. The basis for this new paradigm is a three-pronged, multi-disciplinary model of assessment, mitigation, and performance (the AMP model). The application of the methodologies, criteria, and guidance outlined in the book helps to reduce the risk of laboratories becoming the sources of infectious disease outbreaks. This is a valuable resource for those seeking to embrace and implement biorisk

management systems in their facilities and operations, including the biological research, clinical diagnostic, and production/manufacturing communities.
