*Essentials of Corporate Finance* Stephen A. Ross 2007 *Essentials of Corporate Finance*, 5/e by Ross, Westerfield, and Jordan is written to convey the most important concepts and principles of corporate finance at a level that is approachable for a wide audience. The authors retain their modern approach to finance, but have distilled the subject down to the essential topics in 18 chapters. They believe that understanding the why is just as important, if not more so, than understanding the how, especially in an introductory course. Three basic themes emerge as their central focus: an emphasis on intuition - separate and explain the principles at work on a common sense, intuitive level before launching into specifics. Underlying ideas are discussed first in general terms, then followed by specific examples that illustrate in more concrete terms how a financial manager might proceed in a given situation; a unified valuation approach - Net Present Value is treated as the basic concept underlying corporate finance.

They develop the central concepts of modern finance: arbitrage, net present value, efficient markets, agency theory, options, and the trade-off between risk and return, and use them to explain corporate finance with a balance of theory and application. *Steps to Assessment* Karen Anderson 2015-09-01 The purpose of this guide is to address the knowledge areas and skills impacted by hearing loss and to describe assessment procedures to identify the adverse educational effect of hearing loss in these areas. It is not the intent of this guide to include all assessment instruments that could be used to identify the areas of strengths and needs of students with hearing loss. It has been developed to provide a framework for school teams and professionals specializing in the education of students with hearing loss to use when assessing the unique needs of children who are deaf or hard of hearing. These assessments can be used as part of the evaluation process to determine eligibility, as tools for developing specific goals and objectives, or as a measure of pre- and post-instruction performance. Expected development in the expanded core knowledge and skills is also a significant consideration when determining the impact of the hearing loss on school performance and will therefore be integrated into the assessment process described.
