Just as The Color of Law provided a vital understanding of redlining and racial segregation, Marcia Chatelain's Franchise investigates the complex interrelationship between black communities and America's largest, most popular fast food chain. Taking us from the first McDonald's drive-in in San Bernardino to the franchise on Florissant Avenue in Ferguson, Missouri, in the summer of 2014, Chatelain shows how fast food is a source of both power—economic and political—and despair for African Americans. As she contends, fast food is, more than ever before, a key battlefield in the fight for racial justice.

**Honda K-Series Engine Swaps** Aaron Bonk 2014-07-15 The Honda K-Series engine was introduced in 2001, replacing the B-Series as the engine of choice for Honda enthusiasts. These new K-Series engines are the most powerful stock Honda/Acura engines you can get. They featured new technology such as a roller rocker valvetrain, better flowing heads, and advanced variable cam timing technology that made these engines suddenly the thing to have. And that's where the engine swappers come in. In Honda K-Series Engine Swaps, author Aaron Bonk guides you through all the details, facts, and figures you will need to complete a successful K-Series swap into your older chassis. All the different engine variants are covered, as well as interchangeability, compatibility, which accessories work, wiring and controls operation, drivetrain considerations, and more. While you can still modify your existing B-Series, dollar for dollar, you can't make more power than you can with a Honda K-Series engine. If you have an older chassis and are looking for a serious injection of power and technology, swapping a K-Series engine is a great option. Honda K-Series Engine Swaps will tell you everything you need to know.

**Boards That Lead** Ram 2013-11-19 Is your firm's board creating value—or destroying it? Change is coming.

Leadership at the top is being redefined as boards take a more active role in decisions that once belonged solely to the CEO. But for all the advantages of increased board engagement, it can create debilitating questions of authority and dangerous meddling in day-to-day operations. Directors need a new road map—for when to lead, when to partner, and when to stay out of the way. Boardroom veterans Ram Charan, Dennis Carey, and Michael Useem advocate this new governance model—a sharp departure from what has been demanded by governance activists, raters, and regulators—and reveal the emerging practices that are defining shared leadership of directors and executives. Based on personal interviews and the authors' broad and deep experience working with executives and directors from dozens of the world's largest firms, including Apple, Boeing, Ford, Infosys, and Lenovo, *Boards That Lead* tells the inside story behind the successes and pitfalls of this new leadership model and explains how to:

- Define the central idea of the company
- Ensure that the right CEO is in place and potential successors are identified
- Recruit directors who add value
- Root out board dysfunction
- Select a board leader who deftly bridges the divide between management and the board
- Set a high bar on ethics and risk

With a total of eighteen checklists that will transform board directors from monitors to leaders, Charan, Carey, and Useem provide a smart and practical guide for businesspeople everywhere—whether they occupy the boardroom or the C-suite.
