**Secret Recipe** Robert Darden 2004 An American icon celebrates 50 years because Colonel Sanders and Pete Harman put people first and integrated an urgency for excellence and paid attention to every detail of their restaurant business. These business secrets and practices are written in an easy to read story that is engaging and a delight to anyone interested in growing a business. Colonel Sanders chose Pete Harman to go forward with his "secret recipe" and Pete did, eventually acquiring more than 300 franchises. The story chronicles the early days and the tough times when KFC was owned by corporations that didn't understand the food business. There were lawsuits and hard feelings until spin-off, Tricon Global Restaurant Corporation, emerged with a leader, David Novak. After settling all of the lawsuits between the franchisees and Pepsico, David said to Pete, "Now teach me the restaurant business." Pete did. Today Tricon is regarded as a highly successful international business and KFC maintains a restaurant stronghold on every continent in the world.

The Local Impact of Globalization in South and Southeast Asia Bart Lambregts 2015-08-27 In the past two decades, several millions of IT-enabled services jobs have been relocated or 'offshored' from the US and Europe to, in particular, low cost economies around the world. Most of these jobs so far have landed in South and South-East Asia, with India and the Philippines receiving the bulk of them. This has caused profound changes in the international division of labour, and has had correspondingly wide social and economic effects. This book examines how this 'next wave in globalization' affects people and places in South and South-East Asia. It brings together twelve case studies from India, the Philippines, China, Hong Kong and Thailand, and explores how and for whom services offshoring creates opportunities, triggers local economic transformations and produces challenges. This book in addition compares how different countries take part in this 'second global shift',

investigates service-sector driven economic development from a historical perspective, and engages with the question whether and to what extent services offer a new promising avenue of sustained economic growth for developing countries. It argues that service-led development in developing countries is not easy for all the workers involved, or a guaranteed path to sustained economic development and prosperity. This volume stands out from other books in the field in its exploration of the social and economic outcomes in the cities and countries where services have been located. Based on cutting edge empirical research and original data, the volume offers a state-of-the-art contribution to this growing debate. The book provides valuable insights for students, scholars and professionals interested in services offshoring, socio-economic development and contemporary transformations in South and South-East Asia.

#### **Eastern Europeans in Contemporary Literature and Culture**

Vedrana Veličković 2019-04-08 Eastern Europeans in Contemporary Literature and Culture: Imagining New Europe provides a comprehensive study of the way in which contemporary writers, filmmakers, and the media have represented the recent phenomenon of Eastern European migration to the UK and Western Europe following the enlargement of the EU in the 21st century, the social and political changes after the fall of communism, and the Brexit vote. Exploring the recurring figures of Eastern Europeans as a new reservoir of cheap labour, the author engages with a wide range of both mainstream and neglected authors, films, and programmes, including Rose Tremain, John Lanchester, Marina Lewycka, Polly Courtney, Dubravka Ugrešić, Kapka Kassabova, Kwame Kwei-Armah, Mike Phillips, *It's a Free World*, *Gypo*, *Britain's Hardest Workers*, *The Poles are Coming*, and *Czech Dream*. Analyzing the treatment of Eastern Europeans as builders, fruit pickers, nannies, and victims of sex trafficking, and ways of resisting the stereotypes, this is an important intervention into debates about Europe, migration, and postcommunist transition to capitalism, as represented in multiple contemporary cultural texts.

**The Encyclopedia of Louisville** John E. Kleber 2014-07-11 With more than 1,800 entries, The Encyclopedia of Louisville is the ultimate reference for Kentucky's largest city. For more than 125 years, the world's attention has turned to Louisville for the annual running of the Kentucky Derby on the first Saturday in May. Louisville Slugger bats still reign supreme in major league baseball. The city was also the birthplace of the famed Hot Brown and Benedictine spread, and the cheeseburger made its debut at Kaelin's Restaurant on Newburg Road in 1934. The "Happy Birthday" had its origins in the Louisville kindergarten class of sisters Mildred Jane Hill and Patty Smith Hill. Named for King Louis XVI of France in appreciation for his assistance during the Revolutionary War, Louisville was founded by George Rogers Clark in 1778. The city has been home to a number of men and women who changed the face of American history. President Zachary Taylor was reared in surrounding Jefferson County, and two U.S. Supreme Court Justices were from the city proper. Second Lt. F. Scott Fitzgerald, stationed at Camp Zachary Taylor during World War I, frequented the bar in the famous Seelbach Hotel, immortalized in *The Great Gatsby*. Muhammad Ali was born in Louisville and won six Golden Gloves tournaments in Kentucky.
