Having Our Say Sarah L. Delany 2023-01-03  
Warm, feisty, and intelligent, the Delany sisters

speak their mind in a book that is at once a vital historical record and a moving portrait of two remarkable women who continued to love,

laugh, and embrace life after over a hundred years of living side by side. Their sharp memories show us the post-Reconstruction South and Booker T. Washington, Harlem's Golden Age and Langston Hughes, W. E. B. Du Bois, and Paul Robeson. Bessie breaks barriers to become a dentist; Sadie quietly integrates the New York City system as a high school teacher. Their extraordinary story makes an important contribution to our nation's heritage—and an indelible impression on our lives.

One for the Road Barron H. Lerner 2011-10-14 Don't drink and drive. It's a deceptively simple rule, but one that is all too often ignored. And while efforts to eliminate drunk driving have been around as long as automobiles, every movement to keep drunks from driving has hit

some alarming bumps in the road. Barron H. Lerner narrates the two strong—and vocal—sides to this debate in the United States: those who argue vehemently against drunk driving, and those who believe the problem is exaggerated and overregulated. A public health professor and historian of medicine, Lerner asks why these opposing views exist, examining drunk driving in the context of American beliefs about alcoholism, driving, individualism, and civil liberties. Angry and bereaved activist leaders and advocacy groups like Mothers Against Drunk Driving campaign passionately for education and legislation, but even as people continue to be killed, many Americans remain unwilling to take stronger steps to address the problem. Lerner attributes this attitude to Americans' love of drinking and love of driving, an inadequate public transportation system, the strength of the alcohol lobby, and the enduring backlash against Prohibition. The stories of people killed and maimed by drunk drivers are

heartrending, and the country's routine rejection of reasonable strategies for ending drunk driving is frustratingly inexplicable. This book is a fascinating study of the culture of drunk driving, grassroots and professional efforts to stop it, and a public that has consistently challenged and tested the limits of individual freedom. Why, despite decades and decades of warnings, do people still choose to drive while intoxicated? *One for the Road* provides crucial historical lessons for understanding the old epidemic of drunk driving and the new epidemic of distracted driving.

**Life So Far** Betty Friedan 2006-08 At last Betty Friedan herself speaks about her life and career. With the same unsparing frankness that made *The Feminine Mystique* one of the most influential books of our era, Friedan looks back and tells us what it took -- and what it cost -- to

change the world. Betty Friedan's *The Feminine Mystique*, published in 1963, started the women's movement it sold more than four million copies and was recently named one of the one hundred most important books of the century. In *Life So Far*, Friedan takes us on an intimate journey through her life -- a lonely childhood in Peoria, Illinois salvation at Smith College her days as a labor reporter for a union newspaper in New York (from which she was dismissed when she became pregnant) unfulfilling and painful years as a suburban housewife finding great joy as a mother and writing *The Feminine Mystique*, which grew out of a survey of her Smith classmates and started it all. Friedan chronicles the secret underground of women in Washington, D.C., who drafted her in the early 1960s to spearhead an "NAACP" for women, and recounts the courage of many, including some Catholic nuns who played a brave part in those early days of NOW, the National Organization for Women. Friedan's

feminist thinking, a philosophy of evolution, is reflected throughout her book. She recognized early that the women's movement would falter if institutions did not change to reflect the new realities of women's lives, and she fought to keep the movement practical and free of extremism, including "man-hating." She describes candidly the movement's political infighting that brought her to the point of legal action and resulted in a long breach with fellow leaders Gloria Steinem and Bella Abzug. Friedan is frank about her twenty-two-year marriage to Carl Friedan, an advertising entrepreneur. She writes about the explosive cycle of drinking, arguing, and physical battering she endured and explores her prolonged inability to leave the marriage. (They are now friends and the grandparents of nine.) Friedan was not only pivotal in the founding of NOW, she was also the driving force behind the creation of the National Abortion and Reproductive Rights Action League (NARAL), the National Women's Political Caucus

(NWPC), and the First Women's Bank and Trust Company. She made history by introducing the issue of sex discrimination as an argument against the ratification of a Supreme Court nominee. She convinced the Secretary General of the United Nations to declare 1975 the International Year of the Woman. In this volume, Friedan brings to extraordinary life her bold and contentious leadership in the movement. She lectures, writes, leads think tanks, and organizes women and men to work together in political, legal, and social battles on behalf of women's rights.--From publisher description.

**Cytokine Cell Biology** Frances R. Balkwill  
2000 Cytokine Cellular Biology focuses on cell biology techniques for studying cytokines, cytokine receptors, and cytokine driven processes. Assays for human B cell responses, leucocyte migration, haematopoietic growth factors, macrophage activation by cytokines, RIA, IRMA, and ELISA assays, and quantitative biological assays for cytokines are all covered in

detail. There are also updated chapters on studying cytokine regulation of endothelial cells; the measurement of proliferative, cytostatic, and cytolytic activity of cytokines; and the development of antibodies to cytokines. In addition there is a new chapter on the use of flow cytometry and intracellular fluorescent staining. Written by experts in the field, Cytokine Molecular Biology and Cytokine Cellular Biology form a comprehensive and essential guide to cytokine research.

Real Encounters, Different Dimensions and Otherworldly Beings Brad Steiger 2013-10-01 An expert on the unexplained and paranormal research, Brad and Sherry Steiger turn their unique and remarkable talents to the bold storytelling of encounters with the unknown from throughout the ages. From mysterious strangers and unpredictable beings to weird behavior and paranormal phenomena, they investigate claims of visits from ghastly ghosts, otherworldly creatures, aliens living among us, phantoms, spirits and other accounts of encounters with the unexplained. Over 130 astounding accounts of Real Encounters with the supernatural, such as ... \*Visitors from others

worlds who have had Earth under surveillance for centuries, conducting their activities in secret-- even abducting humans for their own research and undeclared ends. \*Members of secret societies who developed an advanced technology centuries ago which has been kept hidden in underground or undersea cities. \*Time Travelers from the Future. Beings who claim to be our descendents from the future who are returning to study the true destiny of humankind. \*Ghosts that haunt people, places, and things--and poltergeists that create havoc. \*Beasties and monsters found in everyone's worst nightmares--and sometimes in their campsites, fields, and yards. \*Other Dimensional Visitors, Beings, Creatures, or Entities that come not from a faraway world in our solar system or any other, but from an adjacent space-time continuum existing on another vibrational/dimensional frequency or level. \*Previously unknown, unidentified terrestrial life-forms, such beings as "sky-critters," "sky

fish," "rods," and "orbs." \*As yet unknown physical energies that may be activated by the psyche, the unconscious level of the human mind. \*Archetypal creatures and entities of the collective unconscious that are the result of energies that are accessible through dreams, meditations, and other states of altered consciousness. \*Interactions with beings that have been dubbed elves, fairies, devas throughout the centuries. \*The marvelous, creative facet of dreams. \*Out-of-body mind-traveling through Time and Space. \*Majestic beings who are described in the scriptures of many world religions as angels or demons. Southern Edwardseans Obbie Tyler Todd 2022-01-17 The founders and forerunners of the Southern Baptist Convention were fundamentally shaped by the thought of Puritan theologian Jonathan Edwards and his theological successors. While Baptists in the antebellum South boasted a different theological pedigree than Presbyterians or Congregationalists, and

while they inhabited a Southern landscape unfamiliar to the bustling cities and tall forests of New England, they believed their similarities with Edwards far outweighed their differences. Like Edwards, these Baptists were revivalistic, Calvinistic, loosely confessional, and committed to practical divinity. In these four things, Southern Edwardseanism lived, moved, and had its being. In the nineteenth-century, when so many Presbyterians scoffed at Edwards's "innovation" and Methodists scorned his Calvinism, Baptists found in Edwards a man after their own heart. By 1845, at the first Southern Baptist Convention, Southern Edwardseans had laid the groundwork for a convention marked by the theology of Jonathan Edwards.

**The Sci-Fi Movie Guide** Chris Barsanti  
2014-09-22 Once upon a time, science fiction was only in the future. It was the stuff of drive-ins and cheap double-bills. Then, with the ever-increasing rush of new, society-altering technologies, science fiction pushed its way to the present, and it busted out of the genre ghetto of science fiction and barged its way into the mainstream. What used to be mere fantasy (trips to the moon? Wristwatch radios? Supercomputers capable of learning?) are now everyday reality. Whether nostalgic for the future or fast-forwarding to the present, *The Sci-Fi Movie Guide: The Universe of Film from Alien to Zardoz* covers the broad and widening range of science-fiction movies. From the trashy to the epic, from the classics to today's blockbusters, this cinefile's guidebook reviews nearly 1,000 of the biggest, baddest, and brightest from every age and genre of cinematic and TV science

fiction. You'll find more than just Star Wars, Star Trek, and Transformers, with reviews on many overlooked and under-appreciated gems and genres, such as ... • *Monsters!* *Pacific Rim*, *Godzilla*, *The Thing*, *Creature from the Black Lagoon* • *Superheroes: Thor*, *Iron Man*, *X-Men*, *The Amazing Spider-man*, *Superman* • *Avant-garde masterpieces: Solaris*, *2001, Brazil* • and many, many more categories and movies!!

**The Joy Luck Club** Amy Tan 2006-09-21 "The Joy Luck Club is one of my favorite books. From the moment I first started reading it, I knew it was going to be incredible. For me, it was one of those once-in-a-lifetime reading experiences that you cherish forever. It inspired me as a writer and still remains hugely inspirational." —Kevin Kwan, author of *Crazy Rich Asians* Amy Tan's beloved, New York Times bestselling tale of mothers and daughters, now the focus of a new documentary *Amy Tan: Unintended Memoir* on Netflix Four mothers, four daughters, four families whose histories shift with the four winds depending on who's "saying" the stories. In 1949 four Chinese women, recent immigrants to San Francisco, begin meeting to eat dim sum, play mahjong, and talk. United in shared unspeakable loss and hope, they call themselves the Joy Luck

Club. Rather than sink into tragedy, they choose to gather to raise their spirits and money. "To despair was to wish back for something already lost. Or to prolong what was already unbearable." Forty years later the stories and history continue. With wit and sensitivity, Amy Tan examines the sometimes painful, often tender, and always deep connection between mothers and daughters. As each woman reveals her secrets, trying to unravel the truth about her life, the strings become more tangled, more entwined. Mothers boast or despair over daughters, and daughters roll their eyes even as they feel the inextricable tightening of their matriarchal ties. Tan is an astute storyteller, enticing readers to immerse themselves into these lives of complexity and mystery.

*Bent Heavens* Daniel Kraus 2020-02-25 “Kraus gets under your skin with brutal, elegant efficiency. Necessarily horrifying, devastatingly timely.”—Kiersten White, New York Times-bestselling author of *The Dark Descent of Elizabeth Frankenstein* and *Slayer* From New York Times-bestselling author Daniel Kraus comes a breakneck, genre-defying YA thriller perfect for fans of Kiersten White, Neal Shusterman, and M. T. Anderson. Liv Fleming’s father went missing more than two years ago, not long after he claimed to have been abducted by aliens. Liv has long accepted that he’s dead, though that doesn’t mean she has given up their traditions. Every Sunday, she and her lifelong friend Doug Monk trudge through the woods to check the traps Lee left behind, traps he set to

catch the aliens he so desperately believed were after him. But Liv is done with childhood fantasies. Done pretending she believes her father’s absurd theories. Done going through the motions for Doug’s sake. However, on the very day she chooses to destroy the traps, she discovers in one of them a creature so inhuman it can only be one thing. In that moment, she’s faced with a painful realization: her dad was telling the truth. And no one believed him. Now, she and Doug have a choice to make. They can turn the alien over to the authorities...or they can take matters into their own hands. On the heels of the worldwide success of *The Shape of Water*, Daniel Kraus returns with a horrifying and heartbreaking thriller about the lengths people go to find justice and the painful reality of grief. “*Bent Heavens* is the darkest, angriest alien horror story that I've ever encountered. Hell. Yes.”—Stephanie Perkins, New York Times-bestselling author of *There's Someone Inside Your House*

**Filmology** Chris Barsanti 2010-11-18 Sure, everybody loves the movies. But how much do these movie enthusiasts really know about them? In this groundbreaking book, noted film critic Chris Barsanti gives you the most entertaining crash course in good film in a book--one movie a

day. This is not just another greatest-movies celebration. Pairing cinema's lesser-seen gems alongside blockbusters, great early works from the pioneers of film alongside often-overlooked films from great directors, Barsanti unveils the movies that all true cineastes must see--for everyone's viewing pleasure. Filmology: So you can watch your way to an education in film! *Hollywood Highbrow* Shyon Baumann 2007-10-14 Today's moviegoers and critics generally consider some Hollywood products--even some blockbusters--to be legitimate works of art. But during the first half century of motion pictures very few Americans would have thought to call an American movie "art." Up through the 1950s, American movies were regarded as a form of popular, even lower-class, entertainment. By the 1960s and 1970s, however, viewers were regularly judging Hollywood films by artistic criteria previously applied only to high art forms. In *Hollywood Highbrow*, Shyon Baumann for the first time

tells how social and cultural forces radically changed the public's perceptions of American movies just as those forces were radically changing the movies themselves. The development in the United States of an appreciation of film as an art was, Baumann shows, the product of large changes in Hollywood and American society as a whole. With the postwar rise of television, American movie audiences shrank dramatically and Hollywood responded by appealing to richer and more educated viewers. Around the same time, European ideas about the director as artist, an easing of censorship, and the development of art-house cinemas, film festivals, and the academic field of film studies encouraged the idea that some American movies--and not just European ones--deserved to be considered art.

philosophy of language, metaphysics, and philosophical logic. Numerous accounts of vagueness have been proposed in the literature but there has been no general consensus on which, if any, should be accepted. Kit Fine here presents a new theory of vagueness based on the radical hypothesis that vagueness is a "global" rather than a "local" phenomenon. In other words, according to Fine, the vagueness of an object or expression cannot properly be considered except in its relation to other objects or other expressions. He then applies the theory to a variety of topics in logic, metaphysics and epistemology, including the sorites paradox, the problem of personal identity, and the transparency of mental phenomenon. This is the inaugural volume in the Rutgers Lectures in Philosophy series, presenting lectures from the most important contemporary thinkers in the discipline.
