The UK Pesticide Guide 2020 Martin A. Lainsbury 2020 By far the biggest change to *The UK Pesticide Guide* in 2020 is the loss of a number of active ingredients that have been fundamental to many crop protection programmes. The final use-up of chlorothalonil formulations; propiconazole, fenpropimorph, chloridazon and diquat occurs in 2020 but there are also a few exciting new additions. Aclonifen is a new residual herbicide for use in potatoes that already has a number of EAMUs for use in minor crops. BASF is launching its new triazole, mefentrifluconazole, which promises to restore full triazole activity, at least initially. On the insecticide front the new active ingredient from Corteva agriscience, sulfoxaflor, is now listed for use in Cucurbitae and ornamentals under full protection for control of aphids and whitefly. *Chinese Antiquities* Anderson Ga American Art Association 2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. Rural Transitions to Higher Education in South Africa Sue Timmis 2021-09-13 This unique and timely book focuses on research conducted into the experiences of students from rural backgrounds in South Africa: foregrounding decolonial perspectives on their negotiation of access and transitions to higher education. This book highlights not only the challenges of coming from a rural background against the historical backdrop of apartheid and ongoing colonialism, but also shows the immense assets that students from rural areas bring into higher education. Through detailed narratives created by student co-researchers, the book charts early experiences in rural communities, negotiations of transitions to university and, in many cases, to urban life and students' subsequent journeys through higher education spaces and curricula. The book will be of significant interest and value to those engaged in rurality research across diverse settings, those interested in the South African higher education context and higher education more widely. Its innovative, participatory methodology will be invaluable to researchers seeking to conduct collaborative research that draws on decolonising approaches.
