Santro BVR Subbu 2018-01-05 'There's no

business like the car business!' Within months of its launch in late 1998, with every well-known global automobile brand jockeying for a foothold in a small-car market almost monopolized by Maruti Udyog Limited, Hyundai Motor India's debut production, the Santro, emerged as a force to reckon with. The first car to be conceptualized and designed for - and then

developed and manufactured in - India, the 'Sunshine Car' has, over a period of sixteen years, set the record for the quickest small car brand to go from zero to one million units sold. It achieved profitability for Hyundai at an unprecedented speed and made an impressive global impact as a made-in-India automobile in markets as diverse as Algeria and Zimbabwe, Western Europe and North America. In *Santro: The Car That Built a Company*, BVR Subbu, who spearheaded much of the Santro's success, reveals the hitherto untold story of how this small car made such a big impact. Vivid anecdotes detail the challenges of introducing a new product in a new market, the canny business strategies that were employed to get the better of rival brands, the unforgettable marketing campaigns that made all the difference - and the thrills of the high-stakes power battles and everyday drama that characterize corporate India. By turns revelatory, insightful and delightfully engaging,

this is a business story with a difference about a car like no other.

Some will console the grieving heart; others will bring happy remembrances of birthdays and Mother's Day. Some poems are dedicated to the military and those who sacrificed their lives for our freedom. And for the animal lovers, as myself, a devotion to our furry friends. Follow me through my comical marriage up to the ultimate phase of widowhood. My intention is to touch on every aspect of life. The Maruti Story R C Bhargava 2010-02-02 An extraordinary and rare insight into how a few determined entrepreneurs created an icon... - C. K. Prahalad The targets were stupendous and considered unachievable by almost everyone. Slightly over two years to find a suitable partner, finalize all legal documentation, get governmental approval to these agreements as well as to the investment proposals, build a factory, develop a supplier base to meet localization regulations, create a sales and service network, and develop and launch a peoples car that would sell 100,000 a year, in a sector where Indian expertise was limited. And to do this as a public sector company, having to follow all governmental systems and procedures, and having to please both its masters in the government and Suzuki Motor Corporation.

However, the Maruti project succeeded, and in ways that were unimaginable in 1983. The car revolutionized the industry and put a country on wheels. Suddenly, ordinary middle-class men and women could aspire to own a reliable, economical and modern car, and the steep sales targets were easily met. Twenty-six years later, the company, now free of government controls and facing competition from the worlds major manufacturers who have entered the Indian market, still leads the way. Not only that, cars made by Maruti can be seen in all continents. By any yardstick, it is an incredible story, involving grit, management skill and entrepreneurship of a high order. R.C. Bhargava, who was at the helm of the company, and is currently its chairman, co-writing with senior journalist and author Seetha, shows how it was done in this riveting account of a landmark achievement.
