**Exoticism in Salammbô** Anne Mullen Hohl 1995 Using contemporary theories of semiology, Professor Mullen Hohl offers a detailed analysis of exoticism in Flaubert's masterpiece. A pervasive schema of multiplicity and mutilation gives the novel its fundamental structure, rather than the previously accepted dichotomy based upon the dialectical opposition of moon and sun. In this manner Flaubert created metonymic correspondences, shared identities, and equivalences between certain characters and mythological gods of the ancient Mediterranean world--most importantly Adonis. Language and religion are seen as instruments of obfuscation and ambiguity. "Hohl thus offers a powerful challenge to the conventional reading of Salammbô as a series of dialectical oppositions between male and female, sun and moon, civilized and barbarian." --Stirling Haig, French Review.

**The Apu Trilogy** Satyajit Ray 2003 With the Apu Trilogy - Pather Panchali, Aparajito and Apur Sansar - in the fifties, Satyajit Ray caught the attention of film enthusiasts all over the world. What Happened Hillary Rodham Clinton 2017-09-12 "An engaging, beautifully synthesized page-turner" (Slate). The #1 New York Times bestseller and Time #1 Nonfiction Book of the Year: Hillary Rodham Clinton's most personal memoir yet, about the 2016 presidential election. In this "candid and blackly funny" (The New York Times) memoir, Hillary Rodham Clinton reveals what she was thinking and feeling during one of the most controversial and unpredictable presidential elections in history. She takes us inside the intense personal experience of becoming the first woman nominated for president by a major party in an election marked by rage, sexism, exhilarating highs and infuriating lows, stranger-than-fiction twists, Russian interference, and an opponent who broke all the rules. "At her most emotionally raw" (People), Hillary describes what it was like to run against Donald Trump, the mistakes she made, how she has coped with a shocking and devastating loss, and how she found the strength to pick herself back up afterward. She tells readers what it took to get back on her feet—the rituals, relationships, and reading that got her through, and what the experience has taught her about life. In this "feminist manifesto" (The New York Times), she speaks to the challenges of being a strong woman in the public eye, the criticism over her voice, age, and appearance, and the double standard confronting women in politics. Offering a "bracing... guide to our political arena" (The Washington Post), What Happened lays out how the 2016 election was marked by an unprecedented assault on our democracy by a foreign adversary. By analyzing the evidence and connecting the dots, Hillary shows just how dangerous the forces are that shaped the outcome, and why Americans need to understand them to protect our values and our democracy in the future. The election of 2016 was unprecedented and historic. What Happened is the story of that campaign, now with a new epilogue showing how Hillary grappled with many of her worst fears coming true in the Trump Era, while finding new hope in a surge of civic activism, women running for office, and young people marching in the streets.

*The Quest for Alpha* Larry E. Swedroe 2010-12-20 The final word on passive vs. active investing The debate on active investing-stock picking and market timing-versus passive investing-markets are highly efficient and almost impossible to outperform-has raged for decades. Which side is right? In *The Quest for Alpha: The Holy Grail of Investing*, author Larry E. Swedroe puts an end to the debate, proving once and for all that active investing is likely to prove futile as the associated expenses-costs, fees, and time spent analyzing individual stocks and the overall market-are likely to exceed any benefits gained. The book Presents research, data, and quotations that reveal it's extremely difficult to outperform the market Explains why investors should focus on asset allocation, fund construction, costs, tax efficiency, and the building of a globally diversified portfolio that minimizes, if not eliminates, the taking of idiosyncratic, uncompensated risks Other titles by Swedroe: *The Only Guide to Alternative Investments You'll Ever Need* and *The Only Guide You'll Ever Need for the Right Financial Plan* Investors are on a never-ending search for a money manager who will deliver returns above the appropriate risk-adjusted benchmark, aka the "Holy Grail of Investing." *The Quest for Alpha* demonstrates that it's a loser's game-while it's possible to win, it's so unlikely that you shouldn't try.

Exotic Memories 1991-05 This book focuses on the literature of exoticism at the turn of the last century and how it foreshadows our own fin de siècle. Earlier writers of exoticism had turned away from the West and its modernity, rejecting the social changes caused by industrialization and displacing onto 'savage' or

'primitive' cultures their aspirations for political freedom. By the turn of the century, however, European nations had reduced vast areas of the globe to colonial status: this global exportation of Western cultural norms and economic systems had a critical effect on the literature of exoticism. In concentrating on writers from the age of the New Imperialism (1880-1920), this book reveals an important contradiction at the heart of the exoticist impulse: the very expansion that enabled European writers to go in search of exotic Others ensured the eventual disappearance of the exotic. Turn-of-the-century writers of exoticism thus give voice to a deep nostalgia both for the values supposedly lost to the West in its process of modernization and for those once exotic places in which they found, with increasing disappointment, not pristine innocence but merely the traces of their own culture. The author concentrates on four writers - Jules Verne, Pierre Loti, Victor Segalen, and Joseph Conrad - although he touches on a number of other writers, and even painters, like Paul Gauguin. The works of these four writers foreground attitudes and assumptions useful for understanding a wide array of phenomena: an examination of these works shows how nostalgia for a cultural Other was built into the intellectual configuration of modernism, throws light on the early history of anthropology, and helps us understand features of our own cultural formation that are becoming increasingly important in today's global village. Making an explicit link between turn-of-the-century exoticism and the present day, the book concludes with a critical assessment of Pier Paolo Pasolini's neo-exoticist attachment to a supposedly revolutionary Third World in his poetry and literary criticism. The book's critical stance is noteworthy, drawing its basic assumptions from pensiero debole, the 'weak thought' of the contemporary Italian philosopher Gianni Vattimo, whose poststructuralist theories are only now becoming known in the United States. 'Weak thought' seeks to supersede outmoded, metaphysical categories of thought, not by replacing them with something new, but by an elegaic, recollective, and rhetorical dwelling within those categories. The author also makes creative use of narrative theory, and draws on the recent 'new historicism', reading literary texts to excellent effect against the historical events that made them possible.

Dilbert and the Way of the Weasel Scott Adams 2003-10-21 Back after a four-year hiatus, New York Times bestselling author Scott Adams presents an outrageous look at work, home and everyday life in his new book, *Dilbert and the Way of the Weasel*. Building on Dilbert's theory that 'All people are idiots', Adams now says, 'All people are idiots. And they are also weasels.' Just ask anyone who worked at Enron. In this book, Adams takes a look into the Weasel Zone, the giant grey area between good moral behaviour and outright felonious activities. In the Weasel Zone, where most people reside, everything is misleading, but not exactly a lie. Building on his popular comic strip, Adams looks into work, home and everyday life and exposes the way of the weasel for everyone to see. With appearances from all the regular comic strip characters, Adams and Dilbert are at the top of their game - master satirists who expose the truth while making us laugh our heads off.

**From the Isles** Arthur Davison Ficke 2018-01-29 Excerpt from From the Isles: A Series of Songs Out of Greece Where low waves of the South are calling Out of the silent sapphire bay, And slow tides are rising, falling, Under the cliffs where the ripples play. Odours of vineyard and grove come thronging In through my casement open wide; And I would follow the dull sweet longing Unto the slope of the warm hillside. And I would sit in the low-hung arbor, Letting the hours go drifting by, Watching the boats in the little harbor, Watching the changeless purple sky. And I would think of the happy chorus Sung by men in the ancient days, When they could muse There is life before us, Love, and dreams, which the Gods may praise. Seek for the dream that shall be most sweet, Weaving it into a song of beauty, Lifting it up to the high Gods' feet. Orientalism, Modernism, and the American Poem Robert Kern 2009-03-19 Orientalism, Modernism, and the American Poem is a critical and historical interpretation of "Oriental" influences on American modernist poetry. Kern equates Fenollosa and Pound's "discovery" of Chinese writing with the American pursuit of a natural language for poetry, what Emerson had termed the "language of nature." Through analysis and contextualization, Kern sheds light on the three contemporary nexuses of his search: the cultural study of Orientalism and the West, the evolution of Indo-European linguistic theory, and the intellectual tradition of American modernist poetry.

**Triple Talaq** Salman Khurshid 2018-01-25 Triple talaq, or talaq-e-bidat, is one of the most debated issues in the Muslim world. From antiquity, the Muslim faith has been plagued by the portrayal of Muslim men regularly misusing this perceived "right" to divorce their wives instantly by simply uttering "talaq" thrice. The Supreme Court of India, in the landmark judgment of Shayara Bano v. Union of India, has taken the step to declare this form of talaq unconstitutional and to strike down its practice. In Triple Talaq: Examining Faith, Salman Khurshid, who intervened to offer the court an amicus brief in the "Triple Talaq case", offers a straightforward yet comprehensive overview of this complicated issue. Explaining the reasons behind the court's decision, he dives deep into other aspects of this practice: why it is wrong; why it has thrived; what was the judicial history of this issue; what the Quran and Muslim religious leaders say about it; and what the comparative practices in other countries are. A handy guide to this landmark decision and what it means for Muslims in India, this book is written not just for the theologian, but also for the common reader.

Richly illustrated with many case examples drawn from the authors' experiences, both in the US and Europe, the book takes a distinctly global perspective on the subject. It addresses the economic, organizational, as well as cultural implications of technology. . Of great value to lecturers and students of strategic management, business policy, engineering management and management of technology, as well as practitioners who require a broad global picture of the area, it blends European and American perspectives, provides comprehensive coverage, and provides an integrated perspective.
