The Shock Doctrine Naomi Klein 2010-04-01 The bestselling author of No

Logo shows how the global "free market" has exploited crises and shock for three decades, from Chile to Iraq. In her groundbreaking reporting, Naomi Klein introduced the term "disaster capitalism." Whether covering Baghdad after the U.S. occupation, Sri Lanka in the wake of the tsunami, or New Orleans post-Katrina, she witnessed something remarkably similar. People still reeling from catastrophe were being hit again, this time with economic "shock treatment," losing their land and homes to rapid-fire corporate makeovers. The Shock Doctrine retells the story of the most dominant ideology of our time, Milton Friedman's free market economic revolution. In contrast to the popular myth of this movement's peaceful global victory, Klein shows how it has exploited moments of shock and extreme violence in order to implement its economic policies in so many parts of the world from Latin America and Eastern Europe to South Africa, Russia, and Iraq. At the core of disaster capitalism is the use of cataclysmic events to advance radical privatization combined with the privatization of the disaster response itself. Klein argues that by capitalizing on crises, created by nature or war, the disaster capitalism complex now exists as a booming new economy, and is the violent culmination of a radical economic project that has been incubating for fifty years.

Brand New Justice Simon Anholt 2006-08-11 Recently vilified as the prime dynamic driving home the breach between poor and rich nations, here the branding process is rehabilitated as a potential saviour of the economically underprivileged. Brand New Justice, now in a revised paperback edition, systematically analyses the success stories of the Top Thirteen nations, demonstrating that their wealth is based on the 'last mile' of the commercial process: buying raw materials and manufacturing cheaply in third world countries, these countries realise their lucrative profits by adding value through finishing, packaging and marketing and then selling the branded product on to the end-user at a hugely inflated price. The use of sophisticated global media techniques alongside a range of creative marketing activities are the lynchpins of this process. Applying his observations on economic history and the development and impact of global marketing, Anholt presents a cogent plan for developing nations to benefit from globalization. So long the helpless victim of capitalist trading systems, he shows that they can cross the divide and graduate from supplier nation to producer nation. Branding native produce on a global scale, making a commercial virtue out of perceived authenticity and otherness and fully capitalising on the 'last mile' benefits are key to this graduation and fundamental to forging a new global economic balance. Anholt argues with a forceful logic, but also backs his hypothesis with enticing glimpses of this process actually beginning to take place. Examining activities in India, Thailand, Russia and Africa among others, he shows the risks, challenges and pressures inherent in 'turning the tide', but above all he demonstrates the very real possibility of enlightened capitalism working as a force for good in global terms.

From Under the Wheel Lynn Gawronski 2008-06 From Under the Wheel is an introspective look at loss and devastation and helps find a way to reach far beyond the events in our lives that leave scars. It challenges the Why Me? in all of us and exposes the path our choices ultimately create. It encourages a way to move past losses and difficulties by assigning a meaning to individual experiences. And finally, it helps excavate the true intent of your inner self to give purpose to living every day. Lynn Gawronski's view From Under the Wheel is both reality and metaphorical. The picture of the wheel of the single axel flat

bed trailer sitting on her chest as it ran her over is forever imprinted in her memory. But even a miraculous recovery wouldn't stop trauma from happening again. Two years later, she was a passenger in a car hit broadside by another and was left partially paralyzed with facial injuries and emotional scars. The next twenty years would prove to challenge every bit of her faith with more tragedy and loss and at times, just life; each time stimulating another wheel and presenting another effort for recovery and healing whether physical or emotional. The end result is the emergence of a life with purpose and renewed spirit, but the book doesn't stop there. She also provides a planning tool and the steps that she is using to help her carry out her purpose in life so that the reader may do the same. With each new challenge and successful outcome, Lynn Gawronski considers herself out From Under the Wheel.

Afrofuturism 2.0 Reynaldo Anderson 2015-12-16 The ideas and practices related to afrofuturism have existed for most of the 20th century, especially in the north American African diaspora community. After Mark Dery coined the word "afrofuturism" in 1993, Alondra Nelson as a member of an online forum, along with other participants, began to explore the initial terrain and intellectual underpinnings of the concept noting that "AfroFuturism has emerged as a term of convenience to describe analysis, criticism and cultural production that addresses the intersections between race and technology." Afrofuturism 2.0: The Rise of Astroblackness represents a transition from previous ideas related to afrofuturism that were formed in the late 20th century around issues of the digital divide, music and literature. Afrofuturism 2.0 expands and broadens the discussion around the concept to include religion, architecture, communications, visual art, philosophy and reflects its

current growth as an emerging global Pan African creative phenomenon.

Comparing the Literatures David Damrosch 2020-04-07 "The discipline of comparative literature has long sought to develop effective theories and methods of broad-based study, but ideas based on national canons in a handful of Western European countries no longer seem adequate even for the study of national literatures themselves. Comparing the Literatures integrates comparative, postcolonial, and world-literary perspectives and seeks common ground. Looking both at institutional forces and at key episodes in the life and work of comparatists who have struggled to define and to redefine the fundamental terms of literary analysis, from language to literature to theory to comparison itself, Damrosch offers a comprehensive overview of the history and current prospects of comparative studies in a globalizing world"--

Jesuits and Matriarchs Nadine Amsler 2018 In early modern China, Jesuit missionaries associated with the male elite of Confucian literati in order to proselytize more freely, but they had limited contact with women, whose ritual spaces were less accessible. Historians of Catholic evangelism have similarly directed their attention to the devotional practices of men, neglecting the interior spaces in Chinese households where women worshipped and undertook the transmission of Catholicism to family members and friends. Nadine Amsler's investigation brings the domestic and devotional practices of women into sharp focus, uncovering a rich body of evidence that demonstrates how Chinese households functioned as sites of evangelization, religious conflict, and indigenization of Christianity. The resulting exploration of gendered realms in seventeenth-century China reveals networks of religious sociability and ritual communities among women as well as women's remarkable acts of private piety. Amsler's exhaustive archival research and attention to material culture reveals new insights about women's

agency and domestic activities, illuminating areas of Chinese and Catholic history that have remained obscure, if not entirely invisible, for far too long.
