Service Division 1972 **Honda Cb250, Cl250, Cb350, Cl350 & SL 350 1968 to 1973 Workshop Manual** Floyd Clymer 2022-03-16 162 pages and more than 450 illustrations and charts, size 8.25 x 10.75 inches. This publication is a reproduction of the original Honda factory Workshop manual. This group of twin cylinder Honda motorcycles began with the introduction of the 1959 to 1967 four speed 250cc CB72 and 305cc CB77 series. A

workshop manual for these earlier models can be found under ISBN 9781588500731. The models covered in this manual are the twin cylinder 1968 to 1973 five speed CB250 (K0 K5) CL250 (K0 K2) and the CB350 (K0 K4), CL350 (K0 K5) and SL350 (K0 K2). Also included are the front disc brake CB250G and CB350G models. Beginning in 1968 and extending through the 1975 model year, the 'K' suffix often, but not always, changed on an annual basis. 'K0' was used to indicate the first model in the series with updated versions identified as K1, K2, K3 etc. While the 'K' number designations continued in use outside the USA through 1978, in September 1973, American Honda adopted a year identifier within the model number - for example a CT70'76 would be a 1976 model. Therefore, while the use of the letter 'K' suffix has become accepted practice to identify the progression of a particular model by year of production it can, at times, be misleading. For example, Honda occasionally identifies the 1968 models in the CB250/350 series as the CB250 & CB350 without the use of the 'K0' suffix and sometimes 'bypasses' the use of K1 for the 1969 models and jumps to K2 for the 1970 models. Setting this potential for confusion aside and reverting to what has become generally accepted usage of the 'K' suffix, we can state that this manual covers the five speed K0, K1, K2, K3, K4, K5 and disc brake models of the CB250 & CB350 and their variants from 1968 through 1973. Finally, please note that the text in the original Honda Factory Workshop Manual was translated from Japanese into English. Consequently, some of the phrasing, grammar, punctuation and word usage may be subtly different from that commonly used in the English language. However, the information, as presented, is readily understandable. In addition, while we have done our best to identify any anomalies and errors that may have occurred during the original translation process, we are certain that we will have missed one or two and we request your indulgence in ignoring them.

Honda Motorcycles Workshop Manual 250-305 Twins 1960-1969 Honda Motor 2008-03 188 pages, 245 illustrations, size 8.25 x 11 inches. A faithful reproduction of the 1967 Floyd Clymer publication of the official 1960 Honda Factory

Workshop Manual for the 250-305 series C72, C77, CS72, CS77, CB72, CB77 (Hawk). This series of motorcycles were introduced in 1960 and the last year for manufacture was 1967 however, some models were sold and titled in the US during 1968 and 1969. There are exhaustive tables of technical data, tolerances and fits and all of the expected data from a factory publication for the repair and overhaul of all major and minor mechanical and electrical components, making it an invaluable resource for collectors and restorers of these classic Honda motorcycles. There are 245 illustrations and each procedure is explained in a step-by-step method using an appropriate illustration. The translation from Japanese to English is, at times, a little quirky but the profuse illustrations make up for any difficulty in understanding what needs to be done! There are separate sections that deal with the repair and overhaul procedures for the engine, transmission, wheels and brakes, front forks, frame and carburetor, plus a detailed electrical service section. This is a - must have - reference for any Honda enthusiast and would certainly assist in helping any potential purchaser better understand the inner workings prior purchasing of one of these classic motorcycles. Out-of-print and unavailable for many years, this book is highly sought after on the secondary market and we are pleased to be able to offer this reproduction as a service to all Honda enthusiasts worldwide.
