2018-07-06 Magic within the city-state of Marek works without the need for bloodletting, unlike elsewhere in Teren, thanks to an agreement three hundred years ago between an angel and the founding fathers. It also ensures that political stability is protected from magical influence. Now, though, most sophisticates no longer even believe in magic or the cityangel. But magic has suddenly stopped working, discovers Reb, one of the two sorcerers who survived a plague that wiped out virtually all of the rest. Soon she is forced to acknowledge that someone has deposed the cityangel without

being able to replace it. Marcia, Heir to House Fereno, and one of the few in high society who is well-aware that magic still exists, stumbles across that same truth. But it is just one part of a much more ambitious plan to seize control of Marek. Meanwhile, city Council members connive and conspire, unaware that they are being manipulated in a dangerous political game. A game that threatens the peace and security not just of the city, but all the states around the Oval Sea, including the shipboard traders of Salina upon whom Marek relies. To stop the impending disaster, Reb and Marcia, despite their difference in status, must work together alongside the deposed cityangel and Jonas, a messenger from Salina. But first they must discover who is behind the plot, and each of them must try to decide who they can really trust.

Transient Techniques in Electrochemistry Digby Macdonald 2012-12-06 The study of electrochemical reactions by relaxation or transient techniques has expanded rapidly over the last two decades. The impetus for the development of these techniques has been the desire to obtain quantitative data on the rates of "fast" electrochemical processes, including those coupled to homogeneous chemical reactions in

solution. This has necessarily meant the development of techniques that are capable of delineating the effects of mass transport and charge transfer at very short times. The purpose of this book is to describe how the various transient techniques may be used to obtain the desired information. Emphasis is placed upon the detailed mathematical development of the subject, since this aspect is the most frequently ignored in other texts in this field. In any relaxation or transient technique for the study of rate processes, it is necessary to disturb the reaction from equilibrium or the steady state by applying a perturbing impulse to the system. The system is then allowed to relax to a new equilibrium or steady-state position, and the transient (i. e. , the response as a function of time) is analyzed to extract the desired kinetic information. In electrochemical studies the heterogeneous rate constants are, in general, dependent upon the potential difference across the interface, so that the perturbing impulse frequently takes the form of a known variation in potential as a function of time.

Intellectual Property, Competition Law and Economics in Asia R Ian McEwin 2011-10-07
 This book results from a conference held in Singapore in September 2009 that brought together distinguished lawyers and economists to examine the differences and similarities in the intersection between intellectual property and competition laws in Asia. The prime focus was how best to balance these laws to improve economic welfare. Countries in Asia have different levels of development and experience with intellectual property and competition laws. Japan has the longest experience and now vigorously enforces both competition and intellectual property laws. Most other countries in Asia have only recently introduced intellectual property laws (due to the Trade-Related Aspects of Intellectual Property Rights (TRIPS) Agreement) and competition laws (sometimes due to the World Bank, International Monetary Fund or free trade agreements). It would be naïve to think that laws, even if similar on the surface, have the same goals or can be enforced similarly. Countries have differing degrees of acceptance of these laws, different economic

circumstances and differing legal and political institutions. To set the scene, Judge Doug Ginsburg, Greg Sidak, David Teece and Bill Kovacic look at the intersection of intellectual property and competition laws in the United States. Next are country chapters on Asia, each jointly authored by a lawyer and an economist. The country chapters outline the institutional background to the intersection in each country, discuss the policy underpinnings (theoretically as well as describing actual policy initiatives), analyse the case law in the area, and make policy prescriptions.

The Lisu Michele Zack 2017-12-01 This first-ever book about the Lisu brings their ironic worldview to life through vivid, often amusing accounts of individuals, communities, regions, and practices. One of the smallest and last groups of stateless people, and the most egalitarian of all Southeast Asian highland minorities, the Lisu have not only survived extremes at the crossroads of civil wars, the drug trade, and state-sponsored oppression but adapted to modern politics and technology without losing their identity. The Lisu weaves a lively narrative that condenses humanity's transition from border-free tribal groupings into today's nation-states and global market economy. Journalist and historian Michele Zack first encountered the Lisu in the 1980s and conducted research and fieldwork among them in the 1990s. In 2014 she again traveled extensively in tribal areas of Thailand, Myanmar, and China, when she documented the transformative changes of globalization. Some Lisu have adopted successful new urban occupations in business and politics, while most continue to live as agriculturists "far from the ruler." The cohesiveness of Lisu culture has always been mysterious—they reject hierarchical political organization and traditionally had no writing system—yet their culture provides a particular skillset that has helped them navigate the terrain of the different religious and political systems they have recently joined. They've made the transition from living in lawless, self-governing highland peripheries to becoming residents and citizens of nation-states in a single generation. Ambitious and written with journalist's eye for detail and storytelling, *The Lisu* introduces the unique and fascinating

culture of this small Southeast Asian minority. Their path to national and global citizenship illustrates the trade-offs all modern people have made, and their egalitarian culture provides insight into current political choices in a world turning toward authoritarianism.

Christianity and Politics in Tribal India G.

Kanato Choppy 2021-11-01 Through an ethnohistorical study of the Nagas—a congeries of tribes inhabiting the Indo-Myanmar frontier—this book explores an unusually interesting region of India that is all too often seen as peripheral. G. Kanato Choppy provides a distinct vantage point for understanding the Nagas in relation to colonialism, missionary encounters, identity politics, and cultural change, all seamlessly woven around American Baptist mission history in this region. The book also analyses India's cacophonous postindependence democracy in order to delineate multifaith issues, multiculturalism, and ethnicity-based political movements. Within the West, episodic memories of the "Great Awakening," a significant landmark in the history of Protestantism, have faded into archival records. But among the Nagas of the Indo-Myanmar highlands, Baptist Christianity persists as the dominant religion, influencing the daily lives of nearly three million people. Focusing variously on evangelical faith, missionary zeal, ethnic identities, political struggle, and complex culture wars, *Christianity and Politics in Tribal India* is an original and major study of how Protestant missions changed the history and destiny of a tribal community in one of the unlikeliest regions of South Asia.

The Loose Screw Jim Dawkins 2010-05-27 Jim Dawkins left home at the age of sixteen to pursue his dream of joining the army, and subsequently served with the Royal Green Jackets, including tours of Canada and Northern Ireland. During that time he learnt many important lessons in the 'University of Life' that would serve him well in the future, such as discipline, respect, pride and honour, but which, at the same time, would lead to insufferable stress as he constantly battled with his

conscience and struggled to swim against the tide. Once back in Civvy Street, and with a new house and a baby to support, Jim decided to join the Prison Service. But what faced him in this new career, which centred on Wandsworth, Wormwood Scrubs and Belmarsh prisons, shocked him to the core. For this ex-squaddie, who believed in establishing good working relationships with inmates, including notorious long-termer, Charles Bronson, the cancerous environment of staff bully-boy tactics and prisoner victimization was sickening. Jim tells his story, which, although peppered with humorous anecdotes of often lager-induced incidents from both his army and prison days, bears witness to the stark reality of what actually goes on behind prison doors, and exposes both the glaring flaws in the prison system and the atrocities perpetrated in the name of justice, which ultimately forced his decision to leave the Prison Service seven years later.

The Dichotomy of Leadership Jocko Willink 2018-09-25 THE INSTANT #1 NATIONAL BESTSELLER From the #1 New York Times bestselling authors of *Extreme Ownership* comes a new and revolutionary approach to help leaders recognize and attain the leadership balance crucial to victory. With their first book, *Extreme Ownership* (published in October 2015), Jocko Willink and Leif Babin set a new standard for leadership, challenging readers to become better leaders, better followers, and better people, in both their professional and personal lives. Now, in *THE DICHOTOMY OF LEADERSHIP*, Jocko and Leif dive even deeper into the uncharted and complex waters of a concept first introduced in *Extreme Ownership*: finding balance between the opposing forces that pull every leader in different directions. Here, Willink and Babin get granular into the nuances that every successful leader must navigate. Mastering the *Dichotomy of Leadership* requires understanding when to lead and when to follow; when to aggressively maneuver and when to pause and let things develop; when to detach and let the team run and when to dive into the details and micromanage. In addition, every leader must:

- Take *Extreme Ownership* of everything that impacts their mission, yet utilize *Decentralize Command* by giving ownership to their team.
- Care deeply about their people and their individual success and livelihoods, yet look out for the good of the overall team and above all accomplish the strategic mission.
- Exhibit the most important quality in a leader—humility, but also be willing to speak up and push back against questionable decisions that could hurt the team and the mission.

With examples from the authors' combat and training experiences in the SEAL teams, and then a demonstration of how each lesson applies to the business world, Willink and Babin clearly explain *THE DICHOTOMY OF LEADERSHIP*—skills that are mission-critical for any leader and any team to achieve their ultimate goal: VICTORY.

between commercial law and commercial practice. The purpose of the book is to prompt a more critical and constructive reassessment of current commercial law and its practices, and to instigate a more fruitful dialogue between academics, judges, law reformers and practitioners. The result is a series of provocative and challenging essays addressing an enormous range of problems that are of intimate concern to commercial practice. Some essays focus on broad themes, such as globalization and trust. Others address more specific issues, such as contract interpretation or constraining modern management. Yet another group targets special problems, such as dematerialisation or super-priority, in order to assess the success of commercial law in meeting commercial demands. The depth and breadth of issues addressed is a credit to the authors. Taken as a whole, the volume makes some pointed suggestions for improving the practices and processes, and indeed the future progress, of commercial law.

Moon and the Mars Kia Corthron 2021-09-07 An exploration of NYC and America in the burgeoning moments before the start of the Civil War through the eyes of a young, biracial girl—the highly anticipated new novel from the winner of the Center for Fiction's First Novel Prize. "Corthron, a true heir to James Baldwin, presents a startlingly original exposure of the complex roots of American racism." —Naomi Wallace, MacArthur "Genius" Playwriting Fellow and author of *One Flea Spare* In *Moon and the Mars*, set in the impoverished Five Points district of New York City in the years 1857-1863, we experience neighborhood life through the eyes of Theo from childhood to adolescence, an orphan living between the homes of her Black and Irish grandmothers. Throughout her formative years, Theo witnesses everything from the creation of tap dance to P.T. Barnum's sensationalist museum to the draft riots that tear NYC asunder, amidst the daily maelstrom of Five Points work, hardship, and camaraderie. Meanwhile, white America's attitudes towards people of color and slavery are shifting—painfully, transformationally—as the nation divides and marches to war. As with her first novel, *The Castle Cross the Magnet Carter*, which was praised by Viet Thanh Nguyen, Robin D.G. Kelley, and Angela Y. Davis, among many others, Corthron's use of dialogue brings her characters to life in a way that only an award-winning playwright and scriptwriter can do. As Theo grows and attends school, her language and grammar change, as does her own vocabulary when she's with her Black or Irish families. It's an extraordinary feat and a revelation for the reader. "*Moon and the Mars*, [Corthron's] latest masterpiece, is an absorbing story of family and community, of Africans and

Irish, of settler and native, of slavery and abolition, of a city and a nation wracked by Civil War and racist violence, of love won and lost."
