*Continuity and Change in Irish Poetry, 1966-2010* Eric Falci 2012-07-30

In this book, Eric Falci reshapes the story of Irish poetry since the 1960s. He shows how polemical arguments concerning the role of poetry in 1960s Ireland evolve into a set of formal and compositional strategies for emerging Irish poets in the mid 1970s and beyond. His study presents a cohesive picture of the relationship between Northern Irish poetry from the Republic of Ireland since World War II and traces the lineage of lyric practice from a unique historical perspective. At the same time, it recontextualizes late twentieth-century Irish poetry within the long Irish poetic tradition, places Irish writing more accurately within the field of postwar Anglophone poetry and offers a new account of lyric's critical capacities. Of interest to Irish studies and twentieth-century poetry specialists, this book provides a much-needed guide to some of the most inventive and notable poetry written in the past forty years.

*Grab Their Belts to Fight Them* Warren Wilkins 2011 In 1965, despite pronounced disadvantages in firepower and mobility, the Communist Vietnamese endeavored to crush South Vietnam and expel the American military with a strategy for a quick and decisive victory predicated not on guerrilla but big-unit war. Warren Wilkins chronicles the formation, development, and participation of the Viet Cong in the opening phase of the big-unit war and shows how the failure of that strategy profoundly influenced the decision to launch the Tet Offensive. Unlike most books on the war, this one provides an authentic account from the Communist perspective, wi ...

**British Motorcycles of the 1940s and '50s** Mick Walker 2010-10-19

After VE Day in 1945 the British population returned enthusiastically to the road. But the cost and availability of both vehicles and fuel led to the post-war scene being dominated by motorcycles, most of them ex-military machines, eagerly snapped up for everyday use in an age when a family car remained just a dream for many. The British industry, meanwhile, was exhorted to 'export or die', and until well into the 1950s the majority of new British bikes were sold abroad. During this period, the industry - the largest and most important in the world - continued to develop new and exciting machines, which increasingly populated Britain's roads. Mick Walker tells the story of the British post-war motorcycle during this golden age of the industry. Machines from the big

names, AMC (AJS and Matchless), the BSA Group (BSA, Triumph, Sunbeam and Ariel), Douglas, Norton, Panther, Royal Enfield, Velocette and Vincent, are here plus a myriad of smaller firms such as Cotton, Excelsior, Francis-Barnett, James and Scott. With the help of archive photographs and advertising material this book conjures up a lost age of the British bike.

*"¡Mi Raza Primero!" (My People First!)* Ernesto Chávez 2002 ¡Mi Raza Primero! is the first book to examine the Chicano movement's

development in one locale--in this case Los Angeles, home of the largest population of people of Mexican descent outside of Mexico City. Ernesto Chávez focuses on four organizations that constituted the heart of the movement: The Brown Berets, the Chicano Moratorium Committee, La Raza Unida Party, and the Centro de Acción Social Autónomo, commonly known as CASA. Chávez examines and chronicles the ideas and tactics of the insurgency's leaders and their followers who, while differing in their goals and tactics, nonetheless came together as Chicanos and reformers. Deftly combining personal recollection and interviews of movement participants with an array of archival, newspaper, and secondary sources, Chávez provides an absorbing account of the events that constituted the Los Angeles-based Chicano movement. At the same time he offers insights into the emergence and the fate of the movement elsewhere. He presents a critical analysis of the concept of Chicano nationalism, an idea shared by all leaders of the insurgency, and places it within a larger global and comparative framework. Examining such variables as gender, class, age, and power relationships, this book offers a sophisticated consideration of how ethnic nationalism and identity functioned in the United States during the 1960s and 1970s.

**Panther Since 1950** Steve Wilson 2008-01-01 Panther motorcycles were renowned in the post-war years for being sidecar haulers supreme. The book concentrates on the post-1950 models. Panther motorcycles were always more than they appeared and this book clearly shows their innovations in the pre-war years and their post-war transformation.

*Allies at Odds* Eugenie M. Blang 2011-04-16 *Allies at Odds* examines America's Vietnam policy from 1961 to 1968 in an international context by focusing on the United States' relationship with its European partners France, West Germany, and Great Britain. The European response to America's Vietnam policy provides a framework to assess this important chapter in recent American history within the wider perspective of international relations. Equally significant, the respective approaches to the "Vietnam question" by the Europeans and Americans reveal the ongoing challenge for nation-states of transcending narrowly defined state-centered policies for a global perspective pursuant of common goals among the trans-Atlantic allies. Blang explores the failure of France, West Germany, and Great Britain to significantly influence American policy-making.

*Wild Goose Moon* Ben Shepperd 2010-05 "Molly Ivins, Texas columnist and wry observer of American culture, called 1968 'the year everything happened.' 1968 finds America engulfed in political and racial turmoil, assassinations, and a war seemingly without end. The year finds Tom

Windham trying to deal with a few of life's basics - love, death, God, and sex. A sophomore at a conservative university in Dallas and the veteran of an upbringing in a small East Texas town, Tom sits uncomfortably on the cusp of adulthood. He is joined there by his roommate Brandeis. Along with the young women in their lives, their college friends, and their families, they experience the joys, struggles and tragedies of the year on a human scale. While the events of the operatic year keep intervening, changes in American attitudes toward sex, race, women, war and religion are also reflected in *Wild Goose Moon*--Publisher description.

*Pansy's History* Margaret Elizabeth Schutt Gordon 2011-04-02 Margaret "Pansy" Gordon's life covered a remarkable span of years and territory. She lived one century, and the years took her from England to residences in British Columbia, Salt Lake City, and an Ojibway village on Georgian Bay; back to Utah and then Canada to homes at the shore of Bear Lake, on an Alberta farm, and in a prairie town; and to Los Angeles for the last decades of her life. She had gone to British Columbia as the daughter of an Anglican missionary to the Tsimshian Indians. She lived in Los Angeles as a Mormon missionary assigned to work as a genealogist. Her personal journey through repeated frontier adventures, religious service, and economic challenges is as worth noting as where she went, but it would be far less engaging if she did not write about it so well. Her memory for detail and her felicity in putting it to paper will reward those who delve into her "Family History," as she titled her memoir. Claudia L. Bushman, descendant of Pansy Gordon, author of numerous books, taught American studies at Columbia University for many years and taught Mormon studies at Claremont Graduate University from 2008 to 2011. She has included letters and other documents that complement this memoir.

**Women's Rights and Women's Lives in France 1944-1968** Claire Duchon 2003-09-02 *Women's Rights and Women's Lives In France 1944-1968* explores key aspects of the everyday lives of women between the Liberation of France and the events of May '68. At the end of the war, French women believed that a new era was beginning and that equality had been won. The redefined postwar public sphere required women's participation for the new democracy, and women's labour power for reconstruction, but equally important was the belief in women's role as mothers. Over the next two decades, the tensions between competing visions of women's 'proper place' dominated discourses of womanhood as well as policy decisions, and had concrete implications for women's lives. Working from a wide range of sources, including women's magazines, prescriptive literature, documentation from political parties, government reports, parliamentary debates and personal memoirs, Claire Duchon follows the debates concerning womanhood, women's rights and women's lives through the 1944-1968 period and grounds them in the changing reality of postwar France.

*Caviar and Ashes* Marci Shore 2006-01-01 ""In the elegant capital city of Warsaw, the editor Mieczyslaw Grydzewski would come with his two dachshunds to a cafe called Ziemianska."" Thus begins the history of a generation of Polish literati born at the ""fin de siecle,"" They sat in Cafe Ziemianska and believed that the world moved on what they said there. ""Caviar and Ashes"" tells the story of the young avant-gardists of the early 1920s who became the radical Marxists of the late 1920s. They made the choice for Marxism before Stalinism, before socialist realism,

before Marxism meant the imposition of Soviet communism in Poland. It ended tragically. Marci Shore begins with this generation's coming of age after the First World War and narrates a half-century-long journey through futurist manifestos and proletarian poetry, Stalinist terror and Nazi genocide, a journey from the literary cafes to the cells of prisons and the corridors of power. Using newly available archival materials from Poland and Russia, as well as from Ukraine and Israel, Shore explores what it meant to live Marxism as a European, an East European, and a Jewish intellectual in the twentieth century.

*Motorcycle Engineering* P. E. Irving 2017-01-07 328 pages, 186 black & white illustrations, size 5.5 x 8.5 inches. This is a faithful reproduction of the 1962 Floyd Clymer U.S.A. Edition of the same title. While the primary focus of this publication utilizes 1960's and prior motorcycles as examples, the reader is reminded that engineering theory and the laws of physics do not change and as such, the information it contains is still relevant today. Consequently, this publication is indispensable to those either contemplating modification to a current model or the construction of a 'special' for any form of motorcycle competition. Predominantly a technical work, it is written in terms easily understood by the layman. While it includes geometry and math formulae the reader will be aptly rewarded if they take a moment to comprehend the significance of the examples. Consequently, 'Motorcycle Engineering' is considered by many knowledgeable motorcycle enthusiasts to be the best book ever written on how to construct, improve, modify and fine tune a motorcycle from the 'ground up'. It is our pleasure to offer this reprint to all motorcycle enthusiasts worldwide.

**Chrysler's Turbine Car** Steve Lehto 2010-10-01 Offering a behind-the-scenes look into the world of automotive research and development in the 1960s, this engaging narrative traces the birth of Chrysler's alternative "jet" car and reveals the story behind its sudden and mysterious demise. Relying on extensive research and firsthand accounts from surviving members of the turbine car program—including the metallurgist who created the exotic metals for the engine and the test driver who drove it at Chrysler's proving grounds—this chronicle documents the bold development of an automobile with a jet turbine engine. In addition to running well on virtually any flammable liquid—including kerosene, vodka, heating oil, and Chanel N°5 perfume—the pioneering engines had one fifth the number of moving

parts and required less maintenance than conventional engines. Despite the fleet's amazing performance over millions of miles by test drivers, Chrysler pulled the plug on the project and crushed almost all of the cars. The reasons behind the surprising end to the jet car fleet are finally explained here.
