**The Effect** Nick Huntington-Klein 2021-12-20 *The Effect: An Introduction to Research Design and Causality* is about research design, specifically concerning research that uses observational data to make a causal inference. It is separated into two halves, each with different approaches to that subject. The first half goes through the concepts of causality, with very little in the way of estimation. It introduces the concept of identification thoroughly and clearly and discusses it as a process of trying to isolate variation that has a causal interpretation. Subjects include heavy emphasis on data-generating processes and causal diagrams. Concepts are demonstrated with a heavy emphasis on graphical intuition and the question of what we do to data. When we "add a control variable" what does that actually do? Key Features: • Extensive code examples in R, Stata, and Python • Chapters on overlooked topics in econometrics classes: heterogeneous treatment effects, simulation and power analysis, new cutting-edge methods, and uncomfortable ignored assumptions • An easy-to-read conversational tone • Up-to-date coverage of methods with fast-moving literatures like difference-in-differences

#### **Transforming the Workforce for Children Birth Through Age 8**

National Research Council 2015-07-23 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. *Transforming the Workforce for Children Birth Through Age 8* explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. *Transforming the Workforce for Children Birth Through Age 8* offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

**Franchise: The Golden Arches in Black America** Marcia Chatelain 2020-01-07 WINNER • 2021 PULITZER PRIZE IN HISTORY Winner • 2022 James Beard Foundation Book Award [Writing] The "stunning" (David W. Blight) untold history of how fast food became one of the greatest generators of black wealth in America. Just as *The Color of Law* provided a vital understanding of redlining and racial segregation, Marcia Chatelain's *Franchise* investigates the complex interrelationship between black communities and America's largest, most popular fast food chain. Taking us from the first McDonald's drive-in in San Bernardino to the franchise on Florissant Avenue in Ferguson, Missouri, in the summer of 2014, Chatelain shows how fast food is a source of both power—economic and political—and despair for African Americans. As she contends, fast food is, more than ever before, a key battlefield in the fight for racial justice.

**Denying to the Grave** Sara E. Gorman 2021 "This chapter addresses the complicated topic of conspiracy theories. This topic is complicated because a conspiracy theory is not prima facie wrong. Yet one of the hallmarks of false scientific beliefs is the claim by their adherents that they are the victims of profiteering, deceit, and cover-ups by conglomerates variously composed of large corporations, government regulatory agencies, the media, and professional medical societies. The trick is to figure out if the false ones can be readily separated from those in which there may be some truth. Only by carefully analyzing a number of such conspiracy theories and their adherents does it become possible to offer some guidelines as to which are most obviously incorrect. The chapter then studies the psychology of conspiracy theory adherence. It argues that belittling people who come to believe in false conspiracy theories as ignorant or mean-spirited is perhaps the surest route to reinforcing an anti-science position"--

**How Do You Live?** Genzaburo Yoshino 2021-10-26 The first English translation of the classic Japanese novel that has sold over 2 million copies—a childhood favorite of anime master Hayao Miyazaki (*Spirited Away*, *My Neighbor Totoro*, *Howl's Moving Castle*), with an introduction by Neil Gaiman. First published in 1937, Genzaburō Yoshino's *How Do You Live?* has long been acknowledged in Japan as a crossover classic for young readers. Academy Award-winning animator Hayao Miyazaki has called it his favorite childhood book and announced plans to emerge from retirement to make it the basis of his final film. *How Do You Live?* is narrated in two voices. The first belongs to Copper, fifteen, who after the death of his father must confront inevitable and enormous change, including his own betrayal of his best friend. In between episodes of Copper's emerging story, his uncle writes to him in a journal, sharing knowledge and offering advice on life's big questions as Copper begins to encounter them. Over the course of the story, Copper, like his namesake Copernicus, looks to the stars, and uses his discoveries about the heavens, earth, and human nature to answer the question of how he will live. This first-ever English-language translation of a Japanese classic about finding one's place in a world both infinitely large and unimaginably small is perfect for readers of philosophical fiction like *The Alchemist* and *The Little Prince*, as well as Miyazaki fans eager to understand one of his most important influences.

**TIP 35: Enhancing Motivation for Change in Substance Use Disorder Treatment (Updated 2019)** U.S. Department of Health and Human Services 2019-11-19 Motivation is key to substance use behavior change. Counselors can support clients' movement toward positive changes in their substance use by identifying and enhancing motivation that already exists. Motivational approaches are based on the principles of person-centered counseling. Counselors' use of empathy, not authority and power, is key to enhancing clients' motivation to change. Clients are experts in their own recovery from SUDs. Counselors should engage them in collaborative partnerships. Ambivalence about change is normal. Resistance to change is an expression of ambivalence about change, not a client trait or characteristic. Confrontational approaches increase client resistance and discord in the counseling relationship. Motivational approaches explore ambivalence in a nonjudgmental and compassionate way.

**101 Trauma-Informed Interventions** Linda A. Curran, BCPC, LPC, CACD, CCDPD, EMDR Level II Trained 2013-05-01 This is an imminently practical workbook that shows a variety of invaluable techniques to get centered, calm and organized. An effective and enjoyable guide to help you feel in charge of yourself." ~ Bessel van der Kolk, M.D. This is the workbook that all mental health professionals wish they had at the

beginning of their careers. Containing over 100 approaches to effectively deal with trauma, this workbook pulls together a wide array of treatments into one concise resource. Equally useful in both group and individual settings, these interventions will provide hope and healing for the client, as well as expand and solidify the professional's expertise. Tools and techniques drawn from the most effective trauma modalities: \* Art Therapy \* CBT \* DBT \* EFT \* EMDR \* Energy Psychology \* Focusing \* Gestalt Therapy \* Guided Imagery \* Mindfulness \* Psychodrama \* Sensorimotor Psychology \* Somatic Experiencing and Movement Therapies -BONUS: Book includes a link to all reproducible worksheets! Print and use with clients right away!! Praise for 101 Trauma-Informed Interventions: "Linda Curran's unflagging energy and dedication to the healing of traumatized individuals has led to a voluminous, exciting, and comprehensive, 101 Trauma Informed Interventions. This workbook provides a plethora of effective tools -- traditional as well as innovative -- that can be used in whole or as a part of a course of therapy and also as self-help. The variety of options offered goes a long way towards dispelling the (unfortunately) popular misconception that there are only a limited number of interventions that help people to recover from trauma. Survivors as well as therapists who have been frustrated by the rigidity of strict adherence to evidence based practice will be greatly relieved to find a wealth of useful strategies to experiment, evaluate, and sort into a personally tailored trauma recovery program. This workbook is a god-send for the trauma field, expanding the possibilities for recovery in a most generous way." ~ Babette Rothschild, MSW author of The Body Remembers and 8 Keys to Safe Trauma Recovery "Linda Curran has carefully and knowledgeably curated a practical, effective collection of interventions that actually work for trauma survivors. Any clinician committed to helping those suffering from posttraumatic stress needs to have these tools and resources to draw upon, because standard talk therapy, nine times out of ten, is simply not going to cut it. These exercises will." ~ Belleruth Naparstek, LISW, author of Invisible Heroes: Survivors of Trauma and How They Heal "Drawing from the whole spectrum of trauma-based therapies, Linda Curran has compiled a sampling of practical exercises designed to help therapists and their clients better navigate the mine field that trauma work can be and find the path to healing." ~ Richard Schwartz, Ph.D. author of Internal Family Systems Therapy "101 Trauma-Informed Interventions provides an accessible functional "playbook" for therapists committed to the rehabilitation of the client with a trauma history. In a readable volume Curran integrates diverse approaches of treatment and emphasizes the unique role that trauma plays in mental health. Underlying this eclectic strategy is the common theme emphasizing that healing will only begin when the trauma related feelings embedded in the body are appreciated." ~ Stephen W. Porges, Ph.D., author of The Polyvagal Theory "An interesting compendium of potential interventions that can be interwoven into any therapist's existing conceptual framework" ~ Louis Cozolino, Ph.D., Pepperdine University, and author of 5 books including the best-seller The Neuroscience of Psychotherapy, Healing the Social Brain (2nd edition)

**Standards for Internal Control in the Federal Government** United States Government Accountability Office 2019-03-24 Policymakers and program managers are continually seeking ways to improve accountability in achieving an entity's mission. A key factor in improving accountability in achieving an entity's mission is to implement an effective internal control system. An effective internal control system helps an entity adapt to shifting environments, evolving demands, changing risks, and new priorities. As programs change and entities strive to improve operational processes and implement new technology, management continually evaluates its internal control system so that it is effective and updated when necessary. Section 3512 (c) and (d) of Title 31 of the United States Code (commonly known as the Federal Managers' Financial Integrity Act (FMFIA)) requires the Comptroller General to issue standards for internal control in the federal government.
