

Icm Past Papers 2013 2014

Unveiling the Energy of Verbal Beauty: An Psychological Sojourn through **Icm Past Papers 2013 2014**

In a world inundated with displays and the cacophony of quick transmission, the profound energy and mental resonance of verbal beauty usually diminish into obscurity, eclipsed by the continuous onslaught of sound and distractions. However, set within the musical pages of **Icm Past Papers 2013 2014**, a charming perform of fictional brilliance that pulses with natural emotions, lies an unique journey waiting to be embarked upon. Penned by way of a virtuoso wordsmith, that magical opus books viewers on an emotional odyssey, softly exposing the latent possible and profound affect embedded within the intricate web of language. Within the heart-wrenching expanse with this evocative examination, we will embark upon an introspective exploration of the book is main subjects, dissect its charming writing fashion, and immerse ourselves in the indelible effect it leaves upon the depths of readers souls.

Analytical Methods in Petroleum Upstream Applications Cesar Ovalles 2015-04-02 Effective measurement of the composition and properties

of petroleum is essential for its exploration, production, and refining; however, new technologies and methodologies are not adequately documented in much of the current

literature. Analytical Methods in Petroleum Upstream Applications explores advances in the analytical methods and instrumentation that allow more accurate determination of the components, classes of compounds, properties, and features of petroleum and its fractions. Recognized experts explore a host of topics, including: A petroleum molecular composition continuity model as a context for other analytical measurements A modern modular sampling system for use in the lab or the process area to collect and control samples for subsequent analysis The importance of oil-in-water measurements and monitoring The chemical and physical properties of heavy oils, their fractions, and products from their upgrading Analytical measurements using gas chromatography and nuclear magnetic resonance (NMR) applications Asphaltene and heavy ends analysis Chemometrics and modeling approaches for understanding petroleum composition and properties to improve upstream, midstream, and

downstream operations Due to the renaissance of gas and oil production in North America, interest has grown in analytical methods for a wide range of applications. The understanding provided in this text is designed to help chemists, geologists, and chemical and petroleum engineers make more accurate estimates of the crude value to specific refinery configurations, providing insight into optimum development and extraction schemes.

Learning Approaches in Signal Processing

Wan-Chi Siu 2018-12-07 Coupled with machine learning, the use of signal processing techniques for big data analysis, Internet of things, smart cities, security, and bio-informatics applications has witnessed explosive growth. This has been made possible via fast algorithms on data, speech, image, and video processing with advanced GPU technology. This book presents an up-to-date tutorial and overview on learning technologies such as random forests, sparsity, and low-rank matrix estimation and cutting-edge

Downloaded from
meeting.uniabeu.edu.br on 2022-07-07
by guest

visual/signal processing techniques, including face recognition, Kalman filtering, and multirate DSP. It discusses the applications that make use of deep learning, convolutional neural networks, random forests, etc. The applications include super-resolution imaging, fringe projection profilometry, human activities detection/capture, gesture recognition, spoken language processing, cooperative networks, bioinformatics, DNA, and healthcare.

The Inverted Classroom Model Eva-Marie Großkurth 2014-11-10 Only two years after its first run, the Inverted Classroom Conference has become a familiar event at Marburg University. Most conference participants not only knew about this digital teaching and learning scenario but were experienced users and developers. While during its predecessors most participants wanted to familiarize themselves with the central components of the Inverted Classroom Model, the focus of the 3rd German Inverted Classroom Conference in 2014, to which this

conference volume is dedicated, was not only a discussion of variants of the model but also, for the first time, the inclusion of long-term evaluations and aspects of student behavior. This shift of emphasis is reflected in the contributions to this volume. Even though all central aspects of the ICM - content production and delivery, testing, and the in-class phase - are still addressed, we can now find recommendations concerning digital material acquisition, in-class tuition, the role of student tutors as well as first long-term studies about ICM effects. In general then, the focus was much wider than that of the first two ICM-conferences: from a new and originally non-familiar teaching and learning scenario to more general aspects of digitization of teaching and learning in the 21st century.

Surveying Christian Beliefs and Religious Debates in Post-War Britain B. Clements

2016-01-26 Clements provides a detailed study of religious beliefs in British society, using a

broad range of opinion poll and social survey data. Examining public opinion on religious-secular issues, this book provides a rich analysis of the belief and attitudes of social groups over time.

Coastal Zones Juan Baztan 2015-05-26 Coastal Zones: Solutions for the 21st Century bridges the gap between national and international efforts and the local needs for actions in communities where coastal zone challenges are faced daily. The solution-oriented approach covers issues of coastal zone management as well as responses to natural disasters. This work provides ideas on how to face the challenges, develop solutions, and localize management of common-pool resources. Coastal Zones targets academic stakeholders and coastal stakeholders who have local knowledge and experience but need a theoretical framework and a greater range of skills to make use of this experience. Represents the collaborative work of more than 200 coastal zone researchers from all continents

Provides a transdisciplinary approach that draws on stakeholder knowledge as well as diverse disciplines in the natural and social sciences Provides a basis for the co-development of an effective understanding of social-ecological systems in the coastal zone

Neuroergonomics in Human-Robot

ICEL2015-10th International Conference on e-Learning Dr Carlton Watson 2015-06-12 These proceedings represent the work of researchers participating in the 10th International Conference on e-Learning (ICEL 2015) which is being hosted this year by the College of the Bahamas, Nassau on the 25-26 June 2015. ICEL is a recognised event on the International research conferences calendar and provides a valuable platform for individuals to present their research findings, display their work in progress and discuss conceptual advances in the area of e-Learning. It provides an important opportunity for researchers and managers to come together

by guest*

with peers to share their experiences of using the varied and expanding range of e-Learning available to them. With an initial submission of 91 abstracts, after the double blind, peer review process there are 41 academic Research papers and 2 PhD papers Research papers published in these Conference Proceedings. These papers come from some many different countries including: Australia, Belgium, Brazil, Canada, China, Germany, Greece, Hong Kong, Malaysia, Portugal, Republic of Macedonia, Romania, Slovakia, South Africa, Sweden, United Arab Emirates, UK and the USA. A selection of the best papers - those agreed by a panel of reviewers and the editor will be published in a conference edition of EJEL (the Electronic Journal of e-Learning www.ejel.com). These will be chosen for their quality of writing and relevance to the Journal's objective of publishing papers that offer new insights or practical help into the application e-Learning.

Political Handbook of the World 2022-2023

Tom Lansford 2023-04-25 The Political Handbook of the World 2022-2023 provides timely, thorough, and accurate political information, with more in-depth coverage of current political controversies than any other reference guide. The updated 2022-2023 edition continues to be the most authoritative source for finding complete facts and analysis on each country's governmental and political makeup. Tom Lansford has compiled in one place more than 200 entries on countries and territories throughout the world, this volume is renowned for its extensive coverage of all major and minor political parties and groups in each political system. It also provides names of key ambassadors and international memberships of each country, plus detailed profiles of more than 30 intergovernmental organizations and UN agencies. And this update will aim to include coverage of current events, issues, crises, and controversies from the course of the last two years.

The Media and Financial Crises Steve Schifferes 2014-08-27 The Media and Financial Crises provides unique insights into the debate on the role of the media in the global financial crisis. Coverage is inter-disciplinary, with contributions from media studies, political economy and journalists themselves. It features a wide range of countries, including the USA, UK, Ireland, Greece, Spain and Australia, and a completely new history of financial crises in the British press over 150 years. Editors Steve Schifferes and Richard Roberts have assembled an expert set of contributors, including Joseph E Stiglitz and Lionel Barber, editor of the Financial Times. The role of the media has been central in

shaping our response to the financial crisis. Examining its performance in comparative and historical perspectives is crucial to ensuring that the media does a better job next time. The book has five distinct parts: The Banking Crisis and the Media The Euro-Crisis and the Media Challenges for the Media The Lessons of History Media Messengers Under Interrogation The Media and Financial Crises offers broad and coherent coverage, making it ideal for both students and scholars of financial journalism, journalism studies, media studies, and media and economic history.

Restructuring the European State Paolo Dardanelli 2017-12-12 Since 1950, devolution reforms have been widespread across Western Europe, leading to constitutional transformation in Belgium, Italy, Spain, and the United Kingdom, as well as the potential for state breakup, as witnessed by independence referendums in Scotland and Catalonia. Over the same period, European integration has

Downloaded from
meeting.uniabeu.edu.br on 2022-07-07
by guest

transferred power upwards to what is now the European Union. The simultaneous occurrence of these seemingly contradictory trends raises fundamental questions. Is state restructuring a uniform process? Has it been fuelled by European integration and, if so, how? Restructuring the European State uses a comparative analysis to present a systematic investigation of the connections between European integration and state restructuring. Paolo Dardanelli argues that there are two distinct dynamics of state restructuring: “bottom up,” where one or more regions demand self-government; and “top down,” where the central government decides to devolve power. Through quantitative analyses of thirteen key phases of state restructuring in Belgium, Denmark, France, Italy, Spain, and the United Kingdom he shows that European integration has a powerful influence only in bottom up cases. Dardanelli points to a striking paradox of integration, whereby an ethos of Europe growing ever closer

to union has become associated with fragmentation, divergence, and increased complexity, rather than a seamless system of multilevel governance. Innovative and rigorously researched, Restructuring the European State marks a major advance in our understanding of contemporary European politics.

Political Handbook of the World 2020-2021 Tom Lansford 2021-05-31 The Political Handbook of the World by Tom Lansford provides timely, thorough, and accurate political information, with more in-depth coverage of current political controversies than any other reference guide. The updated 2020-2021 edition will continue to be the most authoritative source for finding complete facts and analysis on each country’s governmental and political makeup. Compiling in one place more than 200 entries on countries and territories throughout the world, this volume is renowned for its extensive coverage of all major and minor political parties and groups in each political system. Cryptofinance and Mechanisms of Exchange

Stéphane Goutte 2020-01-03 This book describes how the rapid advancement in encryption and network computing gave birth to new tools and products that have influenced the local and global economy alike. One recent and notable example is the emergence of virtual currencies (such as Bitcoin) also known as cryptocurrencies. Virtual currencies introduced a fundamental transformation that affected the way goods, services and assets are exchanged. As a result of its distributed ledgers based on blockchain, cryptocurrencies not only offer some unique advantages to the economy, investors, and consumers, but also pose considerable risks to users and challenges for regulators when

fitting the new technology into the old legal framework. The core of this proposed book is to present and discuss the evidence on financial asset capabilities of virtual currencies. The contributors of this volume analyze several interesting and timely issues such as the particularities of virtual currencies and their statistical characteristics; the diversification benefits of virtual currencies; the behavior and dependence structure between virtual currencies and the financial markets; the economic implications of virtual currencies, their effects, their price risk, and contagion spillovers in a unified and comprehensive framework; the future of virtual currencies and their distributed ledgers technology.

Positive Youth Development, Mental Health, and Psychological Well-Being in Diverse Youth Nora Wium 2023-06-15 In this Research Topic, our aim is to examine how personal resources related to competencies, skills, and self-perception as well as environmental, contextual,

Downloaded from
meeting.uniabeu.edu.br on 2022-07-07
 by guest

and relational features of the social contexts of diverse youth, directly or indirectly are important to mental health and psychological well-being. As previous research on young people has mainly focused on youth's weaknesses rather than their strengths, our use of Positive Youth Development (PYD) in working with culturally diverse youth and their well-being in this Research Topic is novel. We invite contributions from researchers that were initially presented their papers in a meeting that was held by research partners of the Cross-National Project on Positive Youth Development (CN-PYD), and who represent an international and multidisciplinary panel of experts on PYD. The CN-PYD was initiated in 2014 at the University of Bergen and has an ongoing data collection that involves approximately 10,000 minority and majority youth and emerging adults (ages 16 to 29) living in Africa, Asia, Australia, Europe, New Zealand, and South America. CN-PYD uses a strengths-based approach to the

conceptualization of youth as resources and agentic, which is in opposition to the view of the developmental period of adolescence as being a period inherently fraught with problems and risks. The goal of the cross-national project is to assess personal strengths and contextual resources, considering how these resources come together to facilitate youth thriving and to document how young people make positive and valued contributions to themselves and others. We also advance research on the complex interplay between personal and contextual resources and their connections with risk behaviors and problems, in essence, taking a perspective of the whole child, both in terms of strengths and problems.

Blockchain Technology and the Internet of Things Rashmi Agrawal 2020-12-31 This new volume looks at the electrifying world of blockchain technology and how it has been revolutionizing the Internet of Things and cyber-physical systems. Aimed primarily at business

Downloaded from
meeting.uniabeu.edu.br on 2022-07-07

users and developers who are considering blockchain-based projects, the volume provides a comprehensive introduction to the theoretical and practical aspects of blockchain technology. It presents a selection of chapters on topics that cover new information on blockchain and bitcoin security, IoT security threats and attacks, privacy issues, fault-tolerance mechanisms, and more. Some major software packages are discussed, and it also addresses the legal issues currently affecting the field. The information presented here is relevant to current and future problems relating to blockchain technology and will provide the tools to build efficient decentralized applications. Blockchain technology and the IoT can profoundly change how the world—and businesses—work, and this book provides a window into the current world of blockchain. No longer limited to just Bitcoin, blockchain technology has spread into many sectors and into a significant number of different technologies.

Roadways for People Lynn Peterson 2022-12-06
The car-only approach in transportation planning and engineering has led to the construction of roadways that have torn apart and devalued communities, especially Black and Brown communities. Forging a new path and working to repair this damage requires a community solutions-based approach to planning, designing, and building our roadways. In Roadways for People, Lynn Peterson draws from her personal experience and conversations with leaders in the field to showcase new possibilities within transportation engineering and planning. The community solutions-based approach moves away from the narrow standards of traditional transportation projects and focuses instead on a process that involves consistent feedback, learning loops, and meaningful and regular community engagement. Roadways for People is written to empower professionals and policymakers to create transportation solutions that serve people rather

The Routledge Companion to Philosophy of Physics Eleanor Knox 2021-09-28 The Routledge Companion to Philosophy of Physics is a comprehensive and authoritative guide to the

state of the art in the philosophy of physics. It comprises 54 self-contained chapters written by leading philosophers of physics at both senior and junior levels, making it the most thorough and detailed volume of its type on the market – nearly every major perspective in the field is represented. The Companion’s 54 chapters are organized into 12 parts. The first seven parts cover all of the major physical theories investigated by philosophers of physics today, and the last five explore key themes that unite the study of these theories. I. Newtonian Mechanics II. Special Relativity III. General Relativity IV. Non-Relativistic Quantum Theory V. Quantum Field Theory VI. Quantum Gravity VII. Statistical Mechanics and Thermodynamics VIII. Explanation IX. Intertheoretic Relations X. Symmetries XI. Metaphysics XII. Cosmology The difficulty level of the chapters has been carefully pitched so as to offer both accessible summaries for those new to philosophy of physics and standard reference points for active researchers

on the front lines. An introductory chapter by the editors maps out the field, and each part also begins with a short summary that places the individual chapters in context. The volume will be indispensable to any serious student or scholar of philosophy of physics.

Ubiquitous Computing and Ambient Intelligence: Personalisation and User Adapted Services Ramón Hervás 2014-11-10

This book constitutes the refereed proceedings of the 8th International Conference on Ubiquitous Computing and Ambient Intelligence, UCAmI 2014, held in Belfast, UK, in December 2014. The 57 papers presented together with 7 papers of the workshop AmIUA 2014, 8 papers of the workshop IoT 2014, 7 papers of the workshop EUSPAI 2014, and 6 papers of the workshop VSS 2014 were carefully reviewed and selected from numerous submissions. The papers are grouped in topical sections on key application domains for ambient intelligence, human interaction in ambient intelligence, ICT

instrumentation and middleware support for smart environments and objects, adding intelligence for environment adaption, and security and privacy issues in AAL.

The Normative Order of the Internet

Matthias C. Kettemann 2020 There is order on the internet, but how has this order emerged and what challenges will threaten and shape its future? This study shows how a legitimate order of norms has emerged online, through both national and international legal systems. It establishes the emergence of a normative order of the internet, an order which explains and

Downloaded from
meeting.uniabeu.edu.br on 2022-07-07
by guest

justifies processes of online rule and regulation. This order integrates norms at three different levels (regional, national, international), of two types (privately and publicly authored), and of different character (from *ius cogens* to technical standards). Matthias C. Kettemann assesses their internal coherence, their consonance with other order norms and their consistency with the order's finality. The normative order of the internet is based on and produces a liquefied system characterized by self-learning normativity. In light of the importance of the socio-communicative online space, this is a book for anyone interested in understanding the contemporary development of the internet. This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is offered as a free PDF download from OUP and selected open access locations.

Routledge Handbook of National and Regional Ocean Policies Biliana Cicin-Sain
2015-05-15 This comprehensive handbook,

prepared by leading ocean policy academics and practitioners from around the world, presents in-depth analyses of the experiences of fifteen developed and developing nations and four key regions of the world that have taken concrete steps toward cross-cutting and integrated national and regional ocean policy. All chapters follow a common framework for policy analysis. While most coastal nations of the world already have a variety of sectoral policies in place to manage different uses of the ocean (such as shipping, fishing, oil and gas development), in the last two decades, the coastal nations covered in the book have undertaken concerted efforts to articulate and implement an integrated, ecosystem-based vision for the governance of ocean areas under their jurisdiction. This includes goals and procedures to harmonize existing uses and laws, to foster sustainable development of ocean areas, to protect biodiversity and vulnerable resources and ecosystems, and to coordinate the actions of the

Downloaded from
meeting.uniabeu.edu.br on 2022-07-07
by guest

many government agencies that are typically involved in oceans affairs. The book highlights the serious conflicts of use in most national ocean zones and the varying attempts by nations to follow the prescriptions emanating from the 1982 UN Law of the Sea Convention and the outcomes of the 1992, 2002, and 2012 sustainable development summits. The interrelationship among uses and processes in the coast and ocean requires that ocean governance be integrated, precautionary, and anticipatory. Overall, the book provides a definitive state-of-the-art review and analysis of national and regional ocean policies around the world.

Freedom of Navigation and Globalization

Myron H. Nordquist 2014-10-13 Freedom of Navigation and Globalization offers a timely analysis of current issues in the Law of the Sea in six Parts.

Counting Religion in Britain, 1970-2020 Clive D. Field 2021-12-09 Counting Religion in Britain,

1970-2020, the fourth volume in the author's chronological history of British secularization, sheds significant new light on the nature, scale, and timing of religious change in Britain during the past half-century, with particular reference to quantitative sources. Adopting a key performance indicators approach, twenty-one facets of personal religious belonging, behaving, and believing are examined, offering a much wider range of lenses through which the health of religion can be viewed and appraised than most contemporary scholarship. Summative analysis of these indicators, by means of a secularization dashboard, leads to a reaffirmation of the validity of secularization (in its descriptive sense) as the dominant narrative and direction of travel since 1970, while acknowledging that it is an incomplete process and without endorsing all aspects of the paradigmatic expression of secularization as a by-product of modernization.

Essays on Developmental Biology Paul M

Wassarman 2016-03-10 In 2016 Current Topics in Developmental Biology (CTDB) will celebrate its 50th or “golden anniversary. To commemorate the founding of CTDB by Aron Moscona (1921-2009) and Alberto Monroy (1913-1986) in 1966, a two-volume set of CTDB (volumes 116 and 117), entitled Essays on Development, will be published by Academic Press/Elsevier in early 2016. The volumes are edited by Paul M. Wassarman, series editor of CTDB, and include contributions from dozens of outstanding developmental biologists from around the world. Overall, the essays provide critical reviews and discussion of developmental processes for a variety of model organisms. Many essays relate the history of a particular area of research, others personal experiences in research, and some are quite philosophical. Essays on Development provides a window onto the rich landscape of contemporary research in developmental biology and should be useful to both students and investigators for years to

come. Covers the area of developmental processes for a variety of model organisms International board of authors Part of two 50th Anniversary volumes proving a comprehensive set of reviews edited by Serial Editor Paul M. Wassarman

Integrated Coastal and Ocean Management

Biliana Cicin-Sain 2013-02-22 Biliana Cicin-Sain and Robert W. Knecht are co-directors of the Center for the Study of Marine Policy at the University of Delaware in Newark, Delaware and co-authors of The Future of U.S. Ocean Policy (Island Press, 1998).

Mediating Human Rights Lieve Gies

2014-07-11 Drawing on social-legal, cultural and media theory, this book is one of the first to examine the media politics of human rights. It examines how the media construct the story of human rights, investigating what lies behind the apparent media hostility to human rights and what has become of the original ambition to establish a human rights culture. The human

Downloaded from
meeting.uniabeu.edu.br on 2022-07-07

rights regime has been high on the political agenda ever since the Human Rights Act 1998 was enacted. Often maligned in sections of the press, the legislation has entered popular folklore as shorthand for an overbearing government, an overzealous judiciary and exploitative claimants. This book examines a range of significant factors in the mediation of human rights, including: Euroscepticism, the war on terror, the digital reordering of the media landscape, , press concerns about an emerging privacy law and civil liberties. *Mediating Human Rights* is a timely exploration of the relationship between law, politics and media. It will be of immense interest to those studying and researching across Law, Media Studies, Human Rights, and Politics. [Moonlighting Proteins](#) Brian Henderson 2017-04-17 *Moonlighting Proteins: Novel Virulence Factors in Bacterial Infections* is a complete examination of the ways in which proteins with more than one unique biological

action are able to serve as virulence factors in different bacteria. The book explores the pathogenicity of bacterial moonlighting proteins, demonstrating the plasticity of protein evolution as it relates to protein function and to bacterial communication. Highlighting the latest discoveries in the field, it details the approximately 70 known bacterial proteins with a moonlighting function related to a virulence phenomenon. Chapters describe the ways in which each moonlighting protein can function as such for a variety of bacterial pathogens and how individual bacteria can use more than one moonlighting protein as a virulence factor. The cutting-edge research contained here offers important insights into many topics, from bacterial colonization, virulence, and antibiotic resistance, to protein structure and the therapeutic potential of moonlighting proteins. *Moonlighting Proteins: Novel Virulence Factors in Bacterial Infections* will be of interest to researchers and graduate students in

Plug In Electric Vehicles in Smart Grids

Sumedha Rajakaruna 2014-11-29 This book focuses on the state of the art in worldwide research on applying optimization approaches to intelligently control charging and discharging of batteries of Plug-in Electric Vehicles (PEVs) in smart grids. Network constraints, cost considerations, the number and penetration level of PEVs, utilization of PEVs by their owners, ancillary services, load forecasting, risk analysis, etc. are all different criteria considered by the researchers in developing mathematical based equations which represent the presence of PEVs in electric networks. Different objective functions can be defined and different optimization methods can be utilized to coordinate the performance of PEVs in smart grids. This book will be an excellent resource for anyone interested in grasping the current state

of applying different optimization techniques and approaches that can manage the presence of PEVs in smart grids.

Consumers, Corporations, and Public Health

John A. Quelch 2016-01-06 The public health footprint associated with corporate behavior has come under increased scrutiny in the last decade, with an increased expectation that private profit not come at the expense of consumer welfare. Consumers, Corporations, and Public Health assembles 17 case studies at the intersection of business and public health to illustrate how each side can inform and benefit the other. Through contemporary examples from a variety of industries and geographies, this collection provides students with an appreciation for the importance of consumer empowerment and consumer behavior in shaping both health and corporate outcomes.

collaborative and connected mobility services in a society increasingly embracing a sharing culture, is at the center of this disruption. Understanding Mobility as a Service (MaaS): Past, Present and Future examines such topics as: How likely MaaS will be implemented in one digital platform app Whether MaaS will look the same in all countries The role multi-modal contract brokers play Mobility regulations and pricing models MaaS trials, their impacts and consequences Written by the leading thinkers in the field for researchers, practitioners, and policy makers, Understanding Mobility as a Service (MaaS): Past, Present and Future serves as a single source on all the current and evolving developments, debates, and challenges. Includes case studies to show how MaaS is delivered around the world Covers foundational aspects of MaaS, clarifying what it is for those new to the concept Offers an in-depth analysis on a wide range of MaaS topics including governance, contracts, consumer and supplier preferences,

links to societal objectives, the role of trials, assessments, and more Political Handbook of the World 2015 Tom Lansford 2015-03-24 The Political Handbook of the World provides timely, thorough, and accurate political information, with more in-depth coverage of current political controversies than any other reference guide. The updated 2015 edition will continue to be the most authoritative source for finding complete facts and analysis on each country's governmental and political makeup. Compiling in one place more than 200 entries on countries and territories throughout the world, this volume is renowned for its extensive coverage of all major and minor political parties and groups in each political system. It also provides names of key ambassadors and international memberships of each country, plus detailed profiles of more than 30 intergovernmental organizations and UN agencies. And this annual update includes coverage of current events, issues, crises, and
